

A dramatic photograph of sunlight breaking through a thick layer of dark, heavy clouds. The sun is positioned at the top center, creating a bright, glowing area that illuminates the surrounding clouds. Several distinct rays of light, known as crepuscular rays, fan out downwards from the sun, cutting through the dark atmosphere. The overall color palette is dominated by deep blues and blacks of the shadows, contrasted with the warm, golden-yellow and white of the sunlight and its rays. The texture of the clouds appears dense and billowing.
