**Hate Crimes** James B. Jacobs, Kimberly Potter,2000-12-28 In the early 1980s a new category of crime appeared in the criminal law lexicon In response to concerted advocacy group lobbying Congress and many state legislatures passed a wave of hate crime laws requiring the collection of statistics on and enhancing the punishment for crimes motivated by certain prejudices This book places the evolution of the hate crime concept in socio legal perspective James B Jacobs and Kimberly Potter adopt a skeptical if not critical stance maintaining that legal definitions of hate crime are riddled with ambiguity and subjectivity No matter how hate crime is defined and despite an apparent media consensus to the contrary the authors find no evidence to support the claim that the United States is experiencing a hate crime epidemic instead they cast doubt on whether the number of hate crimes is even increasing The authors further assert that while the federal effort to establish a reliable hate crime accounting system has failed data collected for this purpose have led to widespread misinterpretation of the state of intergroup relations in this country The book contends that hate crime as a socio legal category represents the elaboration of an identity politics now manifesting itself in many areas of the law But the attempt to apply the anti discrimination paradigm to criminal law generates problems and anomalies For one thing members of minority groups are frequently hate crime perpetrators Moreover the underlying conduct prohibited by hate crime law is already subject to criminal punishment Jacobs and Potter question whether hate crimes are worse or more serious than similar crimes attributable to other anti social motivations They also argue that the effort to single out hate crime for greater punishment is in effect an effort to punish some offenders more seriously simply because of their beliefs opinions or values thus implicating the First Amendment Advancing a provocative argument in clear and persuasive terms Jacobs and Potter show how the recriminalization of hate crime has little if any value with respect to law enforcement or criminal justice Indeed enforcement of such laws may exacerbate intergroup tensions rather than eradicate prejudice
