## Valuing Others:

Valuing Others in Classical Antiquity Ralph Rosen, Ineke Sluiter, 2010-09-10 How does a discourse of valuing others help to make a group a group The fifth in a series exploring ancient values this book investigates what value terms and evaluative concepts were used in Greece and Rome to articulate the idea that people belong together as a family a group a polis a community or just as fellow human beings Human communities thrive on prosocial behavior In eighteen chapters ranging from Greek tragedy to the Roman gladiators and from house architecture to the concept of friendship this book demonstrates how such behavior is anchored and promoted by culturally specific expressions of evaluative discourse Valuing others in classical antiquity should be of interest to linguists literary scholars historians and philosophers alike

**Valuing People with a Learning Disability** Steve Mee, 2012 Most health and social care service providers claim to value those with a learning disability Yet there can sometimes be a huge gulf between stated intentions and what happens in everyday practice In a few cases that have recently hit the headlines there have even been allegations of systematic abuse This timely book asks three vital questions What do we mean by valuing How does the process of valuing work What needs to happen to ensure that we value people with a learning disability Too often practitioners tend to say they value people all right in theory but not in the real world In this book Dr Steve Mee draws on his experience as a practitioner and lecturer on a learning disability nursing course in which he has successfully used stories to bridge the gap between academic theory and everyday practice Each chapter introduces the reader to a particular area of theory and illustrates it with uniquely powerful memorable stories from practice as well as examples from recent news and historic accounts Reading the book will give practitioners new insight empathy and sensitivity that will make a lasting difference to their practice It invites practitioners to truly reflect on whether they can claim to value the people they support

REVIEWER COMMENT I feel this is a very important piece of work in an area that is often misunderstood From reading the author's work I have questioned my own approach to valuing people and found myself lacking in some areas even though I was of the opinion that I did truly value people with a learning difficulty

**Making Valuing People Work** Fyson, Rachel, Ward, Linda, 2004-06-16 This timely report examines the strategic changes that are occurring within learning disability services as a result of the 2001 Valuing People White Paper It offers evidence based examples of good practice for all those involved in planning strategic changes to or implementing change within services for people with learning disabilities
