was a demonstration of how quickly the industry is moving and of Altman's power to bend reality to his will. In *The Optimist*, the Wall Street Journal reporter Keach Hagey presents the most detailed account yet of Altman's rise from his precocious childhood in St. Louis to his first failed startup experience, his time as legendary entrepreneur Paul Graham's protégé and successor as head of Y Combinator, the startup accelerator where Altman became the premier power broker in Silicon Valley, the founding of OpenAI and his recruitment of a small yet superior team, and his struggle to keep his company at the cutting edge while fending off determined rivals including Elon Musk, a former friend and now Altman's bitter opponent. Hagey conducted more than 250 interviews with Altman's family, friends, teachers, mentors, co-founders, colleagues, investors, and portfolio companies, in addition to spending hours with Altman himself. The person who emerges in her portrait is a brilliant dealmaker with a love of risk who believes in technological progress with an almost religious conviction, yet who sometimes moves too fast for the people around him. With both the promise and peril of AI increasing by the day, Hagey delivers a nuanced, balanced, revelatory account of the individual who is leading us into what he himself has called the intelligence age. Altman is a figure out of Isaac Asimov or Neal Stephenson. Or he is the author himself; if it feels as though we have all collectively stepped into a science-fiction short story, it is Altman who is writing it.
