Pro Virtual Collaboration:

Professional Learning Communities at Work TM and Virtual Collaboration Richard DuFour, Casey Reason, 2015-07-24
Now is the time to transform education By combining the capacities of the PLC at WorkTM process and powerful technology tools teams of educators can meaningfully modify teaching and learning Realize the potential of virtual collaboration to support the PLC process and discover research based strategies collaborative teams can implement to meet contemporary challenges and reach sustained levels of deeper learning

Professional Learning Redefined Isabel Sawyer, Marisa Ramirez Stukey, 2019-02-16
You've just found your new comprehensive guide to designing powerful professional learning Full of protocols vignettes and case studies this book dissects elements of professional learning like coherence connections and content and examines each through an evidence based lens Destined to become a go to resource for anyone in a teacher support role this book analyzes research from the past 25 years on what makes professional learning work In addition to focusing on the often neglected role of the facilitator itself other features include A multi year implementation framework to improve instructional practice Planning tools to shift instruction at the school and district level Techniques and strategies to embed content based learning for all educators

Utilizing Virtual Communities in Professional Practice Smerda-Mason, Dana L., Koch, Douglas John, 2024-07-23
In an era dominated by the demands of the 21st century workforce the imperative for distributed and asynchronous work has never been more pronounced Global organizations grapple with the challenge of fostering connections for diverse purposes ranging from team building to promoting inclusivity in the context of diversity equity and inclusion DEI and addressing collaborative operational needs A deep dive into the creation and utilization of virtual communities illuminating their effectiveness in various professional settings across industries is necessary to empower leaders to connect with their teams From informal social learning environments to formal organizational structures more knowledge is needed to showcase how professionals can leverage authentic connections to inform and support modern professional practice Utilizing Virtual Communities in Professional Practice serves this purpose and stands as a comprehensive guide that seeks to support professionals in exploring the latest theoretical frameworks underpinning successful virtual communities Each chapter of the book combines theoretical insights with practical applications rooted in research and supported by relevant literature By providing examples from diverse industries the book empowers individuals to consider new virtual community approaches for their unique professional settings The objective is to equip readers with new ideas and considerations enabling them to customize and implement virtual communities effectively in realms such as education business and community engagement

Processes and Foundations for Virtual Organizations Luis M. Camarinha-Matos, Hamideh Afsarmanesh, 2013-06-05
Processes and Foundations for Virtual Organizations contains selected articles from PRO VE 03 the Fourth Working Conference on Virtual Enterprises which was sponsored by the International Federation for Information Processing IFIP and held in Lugano Switzerland in October 2003 This fourth edition includes a

rich set of papers revealing the progress and achievements in the main current focus areas VO breeding environments Formation of collaborative networked organizations Ontologies and knowledge management Process models and interoperability Infrastructures Multi agent approaches In spite of many valid contributions in these areas many research challenges remain This is clearly stated in a number of papers suggesting a new research agenda and strategic research roadmaps for advanced virtual organizations With the selected papers included in this book PRO VE pursues its double mission as a forum for presentation and discussion of achievements as well as a place to discuss and suggest new directions and research strategies

Virtual Mentoring for Teachers: Online Professional Development Practices Keengwe, Jared, 2012-08-31 A major investment in professional development is necessary to ensure the fundamental success of instructors in technology integrated classrooms and in online courses However while traditional models of professional development rely on face to face instruction online methods are also gaining traction viable means for faculty development Virtual Mentoring for Teachers Online Professional Development Practices offers peer reviewed essays and research reports contributed by an array of scholars and practitioners in the field of instructional technology and online education It is organized around two primary themes professional development models for faculty in online environments and understanding e Learning and best practices in teaching and learning in online environments The objective of this scholarship is to highlight research based online professional development programs and best practices models that have been shown to enhance effective teaching and learning in a variety of environments
