Understanding And Controlling Crime:

Understanding and Controlling Crime David P. Farrington, Lloyd E. Ohlin, James Q. Wilson, 2012-12-06 In 1982 the John D and Catherine T MacArthur Foundation created a small committee the Justice Program Study Group whose membership is listed at the end of this preface and posed to it what can hardly be regarded as an easy question What ideas what concepts what basic intellectual frameworks are lacking to understand and to more effectively deal with crime in our society Those who are acquainted with the work of the members of the Study Group will appreciate how many divergent views were expressed divergent to the degree that some of us came to the conclusion that we were not a Study Group at all but rather a group being studied an odd collection of ancient experimental animals serving some dark purpose of the Foundation Eventually however a surprisingly strong concurrence emerged We found we were impressed by the extent to which in our discussions we placed heavy reliance on the products of two types of research first those few longitudinal studies related to juvenile delinquency and crime that had been pursued in this country and second a few experimental studies that had sought to measure the consequences of different official interventions in criminal careers These two research strategies had taught us much about crime and its control Other strategies case studies cross sectional surveys participant observations and similar techniques had indeed been productive but it was the longitudinal and experimental designs that firmed up the knowledge that the others helped to discover

Controlling Crime Philip J. Cook, Jens Ludwig, Justin McCrary, 2011-08-22 Criminal justice expenditures have more than doubled since the 1980s dramatically increasing costs to the public With state and local revenue shortfalls resulting from the recent recession the question of whether crime control can be accomplished either with fewer resources or by investing those resources in areas other than the criminal justice system is all the more relevant Controlling Crime considers alternative ways to reduce crime that do not sacrifice public safety Among the topics considered here are criminal justice system reform social policy and government policies affecting alcohol abuse drugs and private crime prevention Particular attention is paid to the respective roles of both the private sector and government agencies Through a broad conceptual framework and a careful review of the relevant literature this volume provides insight into the important trends and patterns of some of the interventions that may be effective in reducing crime

chapters opens with a brief overview which includes the type of government and the living environment of the country to introduce readers to the population The countries were chosen to represent every region of the world and to provide as broad a picture as possible when exploring the issues presented by the problem of crime and different cultures efforts to control it The user friendly format of the volume with each chapter following the same outline makes it easy for readers to compare specific aspects among the 15 cultures These different views of the crime problem around the world and what it means to different people will help students to understand it in a broad sense as a social issue that affects all of humanity
