A HUMAN RELATIONS APPROACH TO MULTICULTURALISM IN K-12 SCHOOLS George Henderson, 2013-06-01

Explicit in this book is the author's belief that it is not enough to say that Americans live in culturally diverse and stratified communities in which educational opportunities are not distributed fairly nor is it enough to reiterate that most educational opportunities are not based solely on students' academic abilities Rather elementary and secondary school personnel must be involved in abating these problems The book is not meant to be read passively by teachers and teacher candidates it is intended to be a dialogue that encourages discussion and when possible action Explicit throughout each chapter is the belief that how teachers teach a course matters as much as what is taught Each chapter is written to achieve four major objectives 1 to discuss key societal factors that positively or negatively affect the quality of instruction students receive in elementary and secondary schools 2 to discuss selected racial and ethnic groups beliefs attitudes and behaviors that characterize teaching personnel students and parents 3 to present seminal research studies and their implications for educating elementary and secondary students and 4 to provide practical suggestions for abating or preventing selected human relation problems in schools Chapters include Challenges for Educators Human Relations in Education Caring About All Students Teachers as Professional Helpers Stress Anxiety and Coping Parents Are People Too and Student Teachers In addition the text seeks to 1 discuss educational reforms that served well in the past but must be altered or abandoned to fit current educational imperatives 2 discuss a wide variety of issues problems and strategies for change that offer readers a balanced view of challenges affecting administrators teachers counselors students and parents 3 employ a scaffolding or spiral approach to topics and 4 offer special attention to the effects of race ethnicity gender sexual orientation nationality and family income on students their parents and teachers Although the book is written primarily for students interested in pursuing careers as elementary or secondary school teachers it should also be of value to experienced teachers as well as school administrators counselors parents and policy
