Science, Creation and the Bible Richard F. Carlson, Tremper Longman III, 2010-10-04 Physicist Richard Carlson and biblical scholar Tremper Longman address the long standing problem of how to relate scientific description of the beginnings of the universe with the biblical creation passages found in Genesis Experts in their respective fields these two authors provide a way to resolve seeming conflicting descriptions Can We Believe Genesis in an Age of Science? Mark Glaab, 2023-02-10 According to many Christian leaders early Genesis is a myth or allegory Therefore Adam and Eve never lived Eve was never tempted and Adam never sinned There was no creation week so God did not make the earth the stars the birds fish or the animals This has become the default position of many Christian teachers ministries and campuses This is not just mainline churches but evangelicals have joined the ranks of doubters in creation This is a reaction to the claims of Christians who work in the sciences claiming that evolution is now an established fact As a result creation week is put in the category of myth or allegory not history New interpretations of Genesis abound There is just one problem This may be how people interpret Scripture but it is not how Scripture interprets Scripture Scripture treats Genesis as history If you are wondering whether Genesis can be interpreted as true history the struggle is over Jesus is not just the cornerstone of the church He is the cornerstone of creation A Guide to Bible Study Harry E.
