

### DESIGNING FOR ALL AGES & ABILITIES

Every design must meet the needs of a diverse range of potential bike riders. Across North America, however, many existing bike facility design practices are limited to only the oldest people being and exclude many who might otherwise use them.

**IN AN AGE OF GROWING POPULATION** that has a high percentage of people older than 50, it is essential to design bike facilities that are usable by all people, including those with physical disabilities. This includes not only older people, but also people with physical disabilities of all ages. The design of bike facilities should be inclusive and accessible to all people, including those with physical disabilities of all ages.

# Urban Bikeway Design Guide

National Association of City Transportation Officials

Third Edition

The third edition of the Urban Bikeway Design Guide provides updated guidance on how to design bike facilities that are safe, usable, and accessible to all people, including those with physical disabilities of all ages.

### OUR VISION

Cities where safe, sustainable, and equitable transportation systems connect communities to the resources they need to thrive
