Understanding Mental Objects:

Understanding Mental Objects Meir Perlow, 1995 The ways in which an individual the subject relates to and perceives other people his or her objects has always been a preoccupation of psychoanalysis and in recent years a plethora of concepts has grown up in the literature In this ground breaking study Meir Perlow sets out to clarify the changing meanings of the different concepts from context to context discussing in depth the theoretical issues underlying them The book begins with an historical survey of how mental objects have been understood in the various schools of psychoanalysis as they have developed These include Freud and his associates the object relations approaches of Klein Fairbairn and Bion orientations derived from ego psychology such as those of Schafer and Kernberg and the self orientation of Winnicott and Kohut In Part Two the author discusses the conceptual and clinical issues involved in the major differences between the concepts Finally in Part Three he delineates three basic meanings of the concepts of mental objects as they have emerged in the literature and shows how they are related to ongoing issues in contemporary psychoanalysis This long overdue clarification of a complex area with its wide ranging and imaginative grasp of the different theories about objects will be an invaluable reference for all psychoanalysts and psychologists
