## Writing Environments:

**Writing Environments** Sidney I. Dobrin, Christopher J. Keller, 2012-02-01 Writing Environments addresses the intersections between writing and nature through interviews with some of America's leading environmental writers. Those interviewed include Rick Bass, Cheryll Glotfelty, Annette Kolodny, Max Oelschlaeger, Simon J. Ortiz, David Quammen, Janisse Ray, Scott Russell Sanders, Edward O. Wilson, and Ann H. Zwinger. From the standpoints of activists, scientists, naturalists, teachers, and highly visible writers, the interviewees consider how different environments have influenced them, how their writing affects environments, and the ways readers experience environments. The interviews are followed by critical responses from writing scholars. This diverse range of voices speaks lucidly and captivantly about topics such as place, writing, teaching, politics, race, and culture, and how these overlap in many complex ways. *Computer Writing Environments* Bruce K. Britton, Shawn M. Glynn, 1989. *The New Writing Environment* Mike Sharples, Thea Van Der Geest, 1996-07-30. *The New Writing Environment* Mike Sharples, Thea van der Geest, 1996-06. Information technology is changing the way we write. Special features such as outliners, spelling checkers, and graphic facilities have transformed word processors into document processors. Document processors have in turn integrated with other electronic resources such as e-mail and the Internet to provide a complete writing environment. *The New Writing Environment* examines the knowledge that is needed in order to develop, use, and evaluate computer-based writing environments. The emphasis is firmly on practical issues: tasks performed by writers at work, problems they encounter, and documents they actually produce. Writing is defined within a wide social and organisational context in order to give an accurate assessment of how the new technology affects the social and cooperative aspects of authorship. The result is a wide-ranging and comprehensive assessment of the relationship between writing and computers.
