Are Tenure Track Professors Better Teachers? David N. Figlio, Morton O. Schapiro, Kevin B. Soter, National Bureau of Economic Research, 2013 This study makes use of detailed student level data from eight cohorts of first year students at Northwestern University to investigate the relative effects of tenure track tenured versus non tenure line faculty on student learning We focus on classes taken during a student s first term at Northwestern and employ a unique identification strategy in which we control for both student level fixed effects and next class taken fixed effects to measure the degree to which non tenure line faculty contribute more or less to lasting student learning than do other faculty We find consistent evidence that students learn relatively more from non tenure line professors in their introductory courses These differences are present across a wide variety of subject areas and are particularly pronounced for Northwestern s average students and less qualified students

Off-Track Profs Edie N. Goldenberg, John G. Cross, 2011-01-21 An investigation of non tenure track faculty at ten elite research universities and the implications for undergraduate education institutional governance and American preeminence in higher education Much attention has been paid to the increasing proportion of non tenure track faculty adjuncts lecturers and others in American higher education Critics charge that universities exploit contingent faculty and graduate students engaging in a type of bait and switch to attract applicants advertising institutional standing based on distinguished faculty who seldom teach undergraduates and as a result provide undergraduates with an inadequate educational experience This book by two experienced academic administrators investigates the expanding role of part time and non tenure track instructors in ten elite research universities and the consequences of this trend for the quality of the educational experience the functioning of the university and the excellence of the academic environment The authors discover to their surprise that the existing data on the workforce in higher education is ambiguous different institutions use different terms for non tenure track instructors some even omit them from faculty data reports making comparisons suspect Many academic administrators are unaware of the tenured nontenured breakdown of their own faculties and the hiring practices of their own universities The authors look closely at the teaching workforce at Berkeley Illinois Michigan Virginia Washington Cornell Duke MIT Northwestern and Washington University believing that these outstanding universities provide a strong test case of resistance to pressures on the traditional tenure system They describe hiring trends and what drives them explain why they matter if we want to improve undergraduate education support collegiality on campus trust in academic governance prevent the erosion of tenure and preserve America's global leadership in higher education Getting Tenure Marcia Lynn Whicker, Jennie J. Kronenfeld, Ruth Ann Strickland, 1993-09-02 This practical guide clarifies the tenure process and gives concrete advice for graduate students and junior faculty members on the strategy required to maximize the chance of achieving tenure The authors explain the agenda of tenure decisions emphasizing the need to think politically and focus attention on the priorities of the decision makers Part-Time on the Tenure Track Joan M. Herbers, 2014-10-28 The case for a flexible work schedule for faculty has been repeatedly made with one policy recommendation being part time positions for tenure track tenured faculty PTTT Despite some of the benefits of this approach for both faculty and institutions the PTTT concept is the least implemented policy for faculty flexibility and is poorly understood This report offers the first comprehensive treatment of PTTT suggesting that this mode of flexibility enhances recruitment retention and engagement of faculty while offering value added productivity planning potential and faculty loyalty for the institution Herbers provides data that explore how a PTTT policy can lead to faculty success and satisfaction across the lifespan of a career and likewise offers analogies and examples of well established practices that administrators across institution types can adapt to create their

own policies Administrators and faculty will find the author s policy recommendations best practices and solutions to common challenges to be a roadmap for stimulating change in their institutions This is the 5th issue of the 40th volume of the Jossey Bass series ASHE Higher Education Report Each monograph is the definitive analysis of a tough higher education issue based on thorough research of pertinent literature and institutional experiences Topics are identified by a national survey Noted practitioners and scholars are then commissioned to write the reports with experts providing critical reviews of each manuscript before publication
