*The Choreographic* Jenn Joy, 2014-10-10 An investigation of dance and choreography that views them not only as artistic strategies but also as intrinsically theoretical and critical practices The choreographic stages a conversation in which artwork is not only looked at but looks back it is about contact that touches even across distance The choreographic moves between the corporeal and cerebral to tell the stories of these encounters as dance trespasses into the discourse and disciplines of visual art and philosophy through a series of stutters steps trembles and spasms In *The Choreographic* Jenn Joy examines dance and choreography not only as artistic strategies and disciplines but also as intrinsically theoretical and critical practices She investigates artists in dialogue with philosophy describing a movement of conceptual choreography that flourishes in New York and on the festival circuit Joy offers close readings of a series of experimental works arguing for the choreographic as an alternative model of aesthetics She explores constellations of works artists writers philosophers and dancers in conversation with theories of gesture language desire and history She choreographs a revelatory narrative in which Walter Benjamin Pina Bausch Francis Al s and Cormac McCarthy dance together she traces the feminist and queer force toward desire through the choreography of DD Dorvillier Heather Kravas Meg Stuart La Ribot Miguel Gutierrez luciana achugar and others she maps new forms of communicability and pedagogy and she casts science fiction writers Samuel R Delany and Kim Stanley Robinson as perceptual avatars and dance partners for Ralph Lemon Marianne Vitali James Foster and Janet Cardiff and George Bures Miller Constructing an expanded notion of the choreographic Joy explores how choreography as critical concept and practice attunes us to a more productively uncertain precarious and ecstatic understanding of aesthetics and art making

**Inner Experience** Georges Bataille, 2014-07-22 Outlines a mystical theology and experience of the sacred founded on the absence of god Originally published in 1943 Inner Experience is the single most significant work by one of the twentieth century's most influential writers It outlines a mystical theology and experience of the sacred founded on the absence of god Bataille calls Inner Experience a narrative of despair but also describes it as a book wherein profundity and passion go tenderly hand in hand Herein he says The mind moves in a strange world where anguish and ecstasy take shape Bataille's search for experience begins where religion philosophy science and literature leave off where doctrines dogmas methods and the arts collapse His method of meditation outlined and documented here commingles horror and delight Laughter intoxication eroticism poetry and sacrifice are pursued not as ends in and of themselves but as means of access to a sovereign realm of inner experience This new translation is the first to include Method of Meditation

and Post Scriptum 1953 the supplementary texts Bataille added to create the first volume of his *Summa Atheologica* This edition also offers the full notes and annotations from the French edition of Bataille's *Oeuvres Complètes* along with an incisive introductory essay by Stuart Kendall that situates the work historically biographically and philosophically

*Georges Bataille* Stuart Kendall, 2007-08-30 Georges Bataille was arguably the greatest influence on the poststructuralist revolution in twentieth century thought and literature yet few truly understand his work and legacy Stuart Kendall now translates the work and life of this renowned French writer anthropologist and philosopher into a concise yet informative biography that reveals fascinating facets of this intellectual giant Until his death in 1962 Bataille was an instrumental force in philosophical debate acting as a foil for both Surrealism and Existentialism and advocating radical views that spanned the entire spectrum of political thought Georges Bataille chronicles these aspects of his intellectual development as well as tracing out his pivotal role in the creation of the College of Sociology and how his writings in aesthetics and art history laid the groundwork for visual culture studies Kendall positions Bataille at the heart of a prodigious community of thinkers including Andr Breton Jean Paul Sartre and Jacques Lacan A compelling account Georges Bataille will be invaluable for all thinkers who have benefited from Bataille's lasting contributions

**Horror in Space** Michele Brittany, 2017-11-21 In sharp contrast to many 1960s science fiction films with idealized views of space exploration Ridley Scott's *Alien* 1979 terrified audiences depicting a harrowing and doomed deep space mission The *Alien* films launched a new generation of horror set in the great unknown inspiring filmmakers to take Earth bound franchises like *Leprechaun* and *Friday the 13th* into space This collection of new essays examines the space horror subgenre with a focus on such films as Paul W S Anderson's *Event Horizon* Duncan Jones' *Moon* Mario Bava's *Planet of the Vampires* and John Carpenter's *Ghosts of Mars* Contributors discuss how filmmakers explored the concepts of the final girl survivor the uncanny valley the isolationism of space travel religion and supernatural phenomena

On Nietzsche Georges Bataille, 2015-09-23 A poetic philosophical and political account of Nietzsche's importance to Bataille and of Bataille's experience in Nazi occupied France Georges Bataille wrote *On Nietzsche* in the final months of the Nazi occupation of France in order to cleanse the German philosopher of the stain of Nazism More than merely a treatise on Nietzsche the book is as much a work of ethics in which thought is put to the test of experience and experience pushed to its limits At once personal and political it was written as an act of war its publication contingent upon the German retreat The result is a poetic and philosophical and occasionally harrowing record of life during wartime Following *Inner Experience* and *Guilty* *On Nietzsche* is the third volume of Bataille's *Summa Atheologica* Haunted by the recognition that existence cannot be at once autonomous and viable herein the author yearns for community from the depths of personal isolation and transforms Nietzsche's will to power into his own will to chance This new translation includes *Memorandum* a selection of 280 passages from Nietzsche's works edited and introduced by Bataille Originally published separately Bataille planned to include the text in future editions of *On Nietzsche* This edition also features the full notes and

annotations from the French edition of Bataille's *Oeuvres Complètes* as well as an incisive introductory essay by Stuart Kendall that situates the work historically, biographically, and philosophically. XCP, 2001. *Canadian Philosophical Reviews*, 2002.

**The History of Continental Philosophy** Alan D. Schrift, 2011-01-01. From Kant to Kierkegaard, from Hegel to Heidegger, continental philosophers have indelibly shaped the trajectory of Western thought since the eighteenth century. Although much has been written about these monumental thinkers, students and scholars lack a definitive guide to the entire scope of the continental tradition. The most comprehensive reference work to date, this eight-volume *History of Continental Philosophy* will both encapsulate the subject and reorient our understanding of it. Beginning with an overview of Kant's philosophy and its initial reception, the *History* traces the evolution of continental philosophy through major figures as well as movements such as existentialism, phenomenology, hermeneutics, and poststructuralism. The final volume outlines the current state of the field, bringing the work of both historical and modern thinkers to bear on such contemporary topics as feminism, globalization, and the environment. Throughout, the volumes examine important philosophical figures and developments in their historical, political, and cultural contexts. The first reference of its kind, *A History of Continental Philosophy* has been written and edited by internationally recognized experts with a commitment to explaining complex thinkers' texts and movements in rigorous yet jargon-free essays suitable for both undergraduates and seasoned specialists. These volumes also elucidate ongoing debates about the nature of continental and analytic philosophy, surveying the distinctive, sometimes overlapping characteristics and approaches of each tradition. Featuring helpful overviews of major topics and plotting road maps to their underlying contexts, *A History of Continental Philosophy* is destined to be the resource of first and last resort for students and scholars alike.

**All of this and Nothing** Anne Ellegood, Douglas Fogle, Charles Long, Corrina Peipon, 2011. *All of this and nothing* is the sixth in the Hammer Museum's biennial invitational exhibition series, which highlights work of Los Angeles-based artists, both established and emerging, alongside a number of international artists. *All of this and nothing* features more than 60 works, much of it created for the exhibition by fourteen artists.

**For the Blind Man in the Dark Room Looking for the Black Cat that Isn't There** Anthony Huberman, 2009. The KGB groomed a charming young American to run for president. Although in the mid-1940s no one had ever heard of JFK, Jack Adams's mother insisted her new son be christened John Fitzgerald. Years after his parents' death, Jack learns the reason for his name: a packet of photos showing his mother in bed with young John Kennedy. As a student at Columbia University, Jack demonstrates that he inherited more than JFK's good looks. His irresistible charisma and political instinct make him a natural campus leader, but he has his sights set on something bigger than the student council. Young Jack Adams wants to be president of the United States, and the Soviet Union is prepared to help. A KGB spy named Dmitri recruits Jack, promising him the presidency in exchange for treason. Dmitri guides Jack for decades, putting him in a position to become the largest intelligence coup in history, unless the candidate's libido derails him first.

Gunkel,2007 Thinking Otherwise is a unique and revealing look at the philosophical dimensions of information and communication technology ICT Among thinkers the importance of what transpires within the virtual world is the effect these activities have on real human beings who exist outside of and beyond the computer generated virtual environment Obviously the result of ICT interactions can lead to good or bad outcomes Gunkel however is not concerned about deciding which argument is more compelling but how these arguments are organised articulated and configured This approach entails challenging criticizing and even changing the terms and conditions of the discourse itself For example the binary nature of computer logic tends to colour debate about subsequent issues by portraying each side as the antithesis of the other That is the switch is turned on or off Thinking Otherwise investigates the unique quandaries complications and possibilities introduced by a form of otherness that veils through technology the identity of the Other Therefore Gunkel formulates alternative ways of proceeding to take into account additional forms of otherness Gunkel submits traditional forms of philosophical reasoning to a critical reevaluation caused by opportunities made available with information technology and also develops alternative ways of thinking that are oriented otherwise
