Wellington's campaigns in the Peninsula most notably at the Battle of Salamanca in 1812 and later at Waterloo where they suffered heavy casualties supporting the Union Brigade's famous charge. The principal source for this book are the papers of Sir James Steuart Colonel of the regiment for almost all of the period in question supplemented by other regimental records Horse Guards paperwork and letters and memoirs allowing both an official understanding of events and several threads of human interest which develop through the narrative. The book is divided into two halves first providing an overview of the regiment and the role of Steuart as Colonel before moving onto an account of the regiment on home service during the early years of the Napoleonic Wars and then on active service in the Peninsular War and at Waterloo. This concludes with a discussion of the lessons learnt during the war as particularly exemplified by the 12th being one of the regiments selected for conversion to lancers in the aftermath of Waterloo.

The Iron Duke Lawrence James, 2011-04-30

Lord Wellington don't know how to lose a battle. The view of an anonymous soldier at Waterloo became the judgement of the world on the man who was hailed as the first general of his age. At Waterloo he defeated Napoleon the master of war and finally checked the disruptive forces of the French Revolution that had troubled Europe for over twenty years. Wellington taught himself the art of war in India where his hard fought victories helped lay the foundations of the British raj. His armies liberated Portugal and Spain shattered the myth of French invincibility and inspired the people of Europe to resist Napoleon. Largely drawn from original sources Lawrence James's biography follows the life of Wellington the soldier and explains how he waged war and why he won battles. This is also the story of a humane intelligent and acerbic aristocrat who believed that his kind were predestined to lead. It shows how he stamped his iron will on the men he commanded and how they responded. It reveals Wellington the professional fighting man who created the remarkable intelligence and logistical services that were the keys to his victories. But it was as the national hero who beat Napoleon gave Europe peace and adhered resolutely to the path of duty that he was honoured by his countrymen who saw him as the highest incarnation of English character.
