The Family First:

Putting Family First Harald Bauder, 2019-05-01 When migrants reach their new home we often interpret their settlement and integration as an individual process driven largely by the labour market But family plays a crucial role Putting Family First is the fruit of a four year academic community partnership to investigate the experience of immigrant families settling in Greater Toronto Contributors explore the integration trajectory of immigrant families from newcomers initial reception to their deep involvement in and attachment to their receiving society Chapters examine the interrelated themes of the policy environment children and youth gender labour markets and work and community supports making insightful connections between concepts such as neoliberalism resilience and social capital Putting Family First applies rigorous academic research to solve practical problems illustrating how the family context can be mobilized to facilitate the successful integration of newcomers and offering important guidance to practitioners and policy makers in Canada and beyond

Family Business on the Couch Manfred F. R. Kets de Vries, Randel S. Carlock, 2007-10-29 The challenge faced by family businesses and their stakeholders is to recognise the issues that they face understand how to develop strategies to address them and more importantly to create narratives or family stories that explain the emotional dimension of the issues to the family The most intractable family business issues are not the business problems the organisation faces but the emotional issues that compound them Applying psychodynamic concepts will help to explain behaviour and will enable the family to prepare for life cycle transitions and other issues that may arise Here is a new understanding and a broader perspective on the human dynamics of family firms with two complementary frameworks psychodynamic and family systematic to help make sense of family run organisations Although this book includes a conceptual section it is first and foremost a practical book about the real world issues faced by business families The book begins by demonstrating that many years of achievement through generations can be destroyed by the next if the family fails to address the psychological issues they face By exploring cases from famous and less well known family businesses across the world the authors discuss entrepreneurs the entrepreneurial family and the lifecycles of the individual and the organisation They go on to show how companies going through change and transition can avoid the pitfalls that endanger both family and company The authors then apply tools that will help family businesses in transition and offer their analyses and conclusions Readers should draw their own conclusions from careful examination of the cases identifying the problems or dilemmas faced and the options for improved business performance and family relationships They should ask what they might have done in the given situation and what new insight into individual or family behaviour each case offers The goal is to avoid a bitter ending **In the Best Interest of the Child** United States. important contributions to how Pentecostal and charismatic Christianities have developed worldwide This edited volume fills a critical gap in two important scholarly literatures The first is the Australian literature on religion in which the absence of the charismatic and Pentecostal element tends to reinforce now widely debunked notions of Australia as lacking the religious tendencies of old Europe The second is the emerging transnational literature on Pentecostal and Charismatic movements This book enriches our understanding not only of how these movements spread worldwide but also how they are indigenised and grow new shoots in very diverse contexts
