The First English Translators of the Classics Carey Herbert Conley,1927 **The First English Translators of the Classics** Carey Herbert Conley,1927 **The First English Translators of the Classics, by C.H. Conley** Carey Herbert Conley,1967 **English Translation and Classical Reception** Stuart Gillespie,2011-02-23 English Translation and Classical Reception is the first genuine cross disciplinary study bringing English literary history to bear on questions about the reception of classical literary texts and vice versa The text draws on the author s exhaustive knowledge of the subject from the early Renaissance to the present The first book length study of English translation as a topic in classical reception Draws on the author s exhaustive knowledge of English literary translation from the early Renaissance to the present Argues for a remapping of English literary history which would take proper account of the currently neglected history of classical translation from Chaucer to the present Offers a widely ranging chronological analysis of English translation from ancient literatures Previously little known unknown and sometimes suppressed translated texts are recovered from manuscripts and explored in terms of their implications for English literary history and for the interpretation of classical literature

Reception and the Classics William Brockliss,Primit Chaudhuri,Ayelet Haimson Lushkov,Katherine Wasdin,2011-12-08 This collection brings together leading experts in a number of fields of the humanities to offer a new perspective on the classical tradition Drawing on reception studies philology and early modern studies the essays explore the interaction between literary criticism and the multiple cultural contexts in which texts were produced discovered appropriated and translated The intersection of Realpolitik and textual criticism poetic and musical aesthetics and authority and self fashioning all come under scrutiny The canonical Latin writers and their subsequent reception form the backbone of the volume with a focus on the European Renaissance It thus marks a reconnection between classical and early modern studies and the concomitant rapprochement of philological and cultural historical approaches to texts and other works of art This book will be of interest to scholars in classics Renaissance studies comparative literature English Italian and art history

experimented with new dramatic techniques and found new publics They prepared the way for the better known dramatists of the next century but produced much work which is valuable in its own right in Latin and in their own vernaculars The popular theatre of the Middle Ages gave endless material for reinvention by playwrights and the legacy of the ancient world became a spur to creativity in tragedy and comedy As soon as readers and audiences had taken in the new plays they were changed again taking new forms as the first experiments were themselves modified and reinvented Writers constantly adapted the texts of plays to meet new requirements These and other issues are explored by a group of international experts from a comparative perspective giving particular emphasis to one of the great European comic dramatists the Portuguese Gil Vicente Tom Earle is King John II Professor of Portuguese at Oxford Catarina Fouto is a Lecturer in Portuguese at King s College London *The Classical World* ,1907 The Harvard Graduates' Magazine ,1928
