Singularity Of Literature:

The Singularity of Literature Derek Attridge, 2017-04-07 The Iliad and Beowulf provide rich sources of historical information The novels of Henry Fielding and Henry James may be instructive in the art of moral living Some go further and argue that Emile Zola and Harriet Beecher Stowe played a part in ameliorating the lives of those existing in harsh circumstances However as Derek Attridge argues in this outstanding and acclaimed book none of these capacities is distinctive of literature What is the singularity of literature Do the terms literature and the literary refer to actual entities found in cultures at certain times or are they merely expressions characteristic of such cultures Attridge argues that this resistance to definition and reduction is not a dead end but a crucial starting point from which to explore anew the power and practices of Western art Derek Attridge provides a rich new vocabulary for literature rethinking such terms as invention singularity otherness alterity performance and form He returns literature to the realm of ethics and argues for the ethical importance of literature demonstrating how a new understanding of the literary might be put to work in a responsible creative mode of reading The Singularity of Literature is not only a major contribution to the theory of literature but also a celebration of the extraordinary pleasure of the literary for reader writer student or critic This Routledge Classics edition includes a new preface by the author

The Work of Literature Derek Attridge, 2015-03-26 What is distinctive about the cultural practice called literature How does it benefit individuals and society How do literary works retain their importance and their capacity to give pleasure over decades and centuries What constitutes responsible criticism These are some of the questions addressed in this book which

develops the arguments put forward in Derek Attridge's influential study *The Singularity of Literature* 2004. Beginning with an extended cross-examination in the form of an interview addressing a range of topics relating to the work of literature understood both as the activity of the writer and as the text itself and the practices of literary reading and literary criticism, it asks what it means to do justice to a work of literature, provides a full account of the concept of singularity, considers the problematic power of criticism and advances an account of the role of context in the writing and reading of literary works. In other chapters, it explores the issue of cultural difference in responses to literature, discusses the working of metaphor, questions the attribution of knowledge to literary works and addresses the topics of affect and hospitality. The book follows through the consequences of regarding the singular and inventive work of literature as an event that takes place anew each time it is read, providing an opening to an otherness excluded by prevailing cultural norms and habits of thought and feeling. Although the focus of the book is on literature, the arguments are relevant to all the arts and engage with the thought of major aesthetic theorists in a number of traditions.

Monstrism, 2002 **Library of Southern Literature** Edwin Anderson Alderman, Joel Chandler Harris, Charles W. Kent, Charles Alphonso Smith, Lucian Lamar Knight, 1909 **South Asia Bulletin**, 2007 Derrida's Legacies Simon Glendinning, Robert Eaglestone, 2008-01-22. This volume brings together some of the most well-known and highly respected commentators on the work of Jacques Derrida from Britain and America in a series of essays written to commemorate the life and come to terms with the death of one of the most important intellectual presences of our time. The sometimes personal, always insightful essays reflect on the multiple ways in which Derrida's work has marked intellectual culture in general and the literary and philosophical culture of Britain and America in particular. The outstanding contributors offer an interdisciplinary view, investigating areas such as deconstruction, ethics, time, irony, technology, location and truth. This book provides a rich and faithful context for thinking about the significance of Derrida's own work as an event that arrived and perhaps still remains to arrive in our time. *Postmodernism and After* Regina Rudaitytė, 2008. The present collection of academic articles is an attempt to reflect on new openings and recent developments in literature, literary theory and culture which seem to point beyond postmodernism and register a return to traditional concepts, theoretical premises and authorial practices. Interestingly enough, forty years after the publication of John Barth's seminal essay 'The Literature of Exhaustion' (1967), the book is trying to diagnose the exhaustion of postmodernism which was predicted by David Lodge already two decades ago. It also attempts to trace the signs in contemporary literature, indicating that postmodernism is past its heyday, that it is losing or has lost its shine, fascination and attraction, and that writers have been turning to the old or pre-modern forms, practices and strategies. Herbert Grabes's comprehensive and illuminating article 'From the Postmodern to the Pre-Modern: More Recent Changes in Literature, Art and Theory' which opens and sets the tone for this collection of essays is a major assessment of new developments in literary culture, focusing on the evolution of the postmodern to the pre-modern mode; it also highlights the role and current popularity of cultural studies.

and cultural history theoretical movements which have been prevailing for some time now after the end of deconstruction The articles assembled in this collection are on diverse thematics and written from diverse theoretical perspectives they differ in scope and methodology and their focus ranges from the postmodern intertextual aspect to the open questioning of it and to more recent developments in the literary culture Focusing on literary icons like A S Byatt John Banville Margaret Atwood Umberto Eco Vladimir Nabokov but also extending into a less known regions geographically as well they invite reconsideration and reconceptualization of such key notions as oetruth meaning production textuality and literary interpretation This book aims at opening fresh discussion debate and reflection on the new age reaching beyond postmodernism and the budding literary mode whatever labels we might stick to it
