Fashion In Focus Tim Edwards, 2010-11-18 The study of fashion has exploded in recent decades yet quite what this all means quite where it might take us is not clear This new book helps to bring fashion into focus with a comprehensive guide to the key theories perspectives and developments in the field Fashion in Focus is the ideal companion for students in the arts and social sciences especially those studying issues such as fashion gender sexuality and consumer culture

The Cultural Career of Coolness Ulla Haselstein, Irmela Hijiya-Kirschner, Catrin Gersdorf, Elena Giannoulis, 2013-10-10 Cool is a word of American English that has been integrated into the vocabulary of numerous languages around the globe Today it is a term most often used in advertising trendy commodities or more generally in promoting urban lifestyles in our postmodern age But what is the history of the term cool When has coolness come to be associated with certain modes of contemporary self fashioning On what grounds do certain nations claim a privilege to be recognized as cool These are some of the questions that served as a starting point for a comparative cultural inquiry which brought together specialists from American Studies and Japanese Studies but also from Classics Philosophy and Sociology The conceptual grid of the volume can be described as follows

- 1 Coolness is a metaphorical term for affect control It is tied in with cultural discourses on the emotions and the norms of their public display and with gendered cultural practices of subjectivity
- 2 In the course of the cultural transformations of modernity the term acquired new importance as a concept referring to practices of individual ethnic and national difference
- 3 Depending on cultural context coolness is defined in terms of aesthetic detachment and self irony of withdrawal dissidence and even latent rebellion
- 4 Coolness often carries

undertones of ambivalence The situational adequacy of cool behavior becomes an issue for contending ethical and aesthetic discourses since an ethical ideal of self control and a strategy of performing self control are inextricably intertwined 5 In literature and film coolness as a character trait is portrayed as a personal strength as a lack of emotion as an effect of trauma as a mask for suffering or rage as precious behavior or as savvy This wide spectrum is significant artistic productions offer valid insights into contradictions of cultural discourses on affect control 6 American and Japanese cultural productions show that twentieth century notions of coolness hybridize different cultural traditions of affect control Fashion's Missing Masses: The representation of marginalized populations in collections and exhibitions of dress Kenna Libes,2026-01-06

Fashion's Missing Masses fills a gap in literature on museums and fashion collections and focuses on the display of clothing and fashion that has historically been left out of the canon The fifteen essays in this volume span topics on Indigenous and traditional dress disabled and fat bodies and queer and ethnic identities Their authors study the ways that dress and textiles have been collected displayed and often ignored across a century and a half of museum exhibitions Representation and inclusion in fashion museums is a new and rapidly evolving area of research in the reexamination of dress history These chapters provide unique information and perspectives on curation collections management conservation and research which will be valuable to a wide group of audiences working teaching and learning in and about museums This volume touches on practical concerns of exhibition including mannequin availability and difficulties of mounting dress as well as broader questions of scholarship and activism that will be key for educators and researchers who wish to stay abreast of developments in this field Diversity in fashion is a hot topic and understanding the line between tokenization and representation in spaces of institutional authority is crucial to learning how we can better serve our diverse populations in the teaching of history *Fashion Cultures* Stella Bruzzi,Pamela Church Gibson,2013-10-18 From the catwalk to the shopping mall from the big screen to the art museum fashion plays an increasingly central role in contemporary culture *Fashion Cultures* investigates why we are so fascinated by fashion and the associated spheres of photography magazines and television and shopping *Fashion Cultures* re addresses the fashionable image considering the work of designers from Paul Smith to Alexander McQueen and Hussein Chalayan investigates the radicalism of fashion photography from William Klein to Corinne Day considers fashion for the unfashionable body the old and the big football and fashion and geographies of style explores the relationship between fashion and the moving image in discussions of female cinema icons from Grace Kelly to Gwyneth Paltrow and iconic male images from Cary Grant to Malcolm X and Mr Darcy that have redefined notions of masculinity and cool makes a significant intervention into contemporary gender politics and theory exploring themes such as spectacle masquerade and the struggle between fashion and feminism Locomotive Engineers Journal ,1921
