Cycles of Time and Meaning in the Mexican Books of Fate Elizabeth Hill Boone,2007-02-01 In communities throughout precontact Mesoamerica calendar priests and diviners relied on pictographic almanacs to predict the fate of newborns to guide people in choosing marriage partners and auspicious wedding dates to know when to plant and harvest crops and to be successful in many of life s activities As the Spanish colonized Mesoamerica in the sixteenth century they made a determined effort to destroy these books in which the Aztec and neighboring peoples recorded their understanding of the invisible world of the sacred calendar and the cosmic forces and supernaturals that adhered to time Today only a few of these divinatory codices survive Visually complex esoteric and strikingly beautiful painted books such as the famous Codex Borgia and Codex Borbonicus still serve as portals into the ancient Mexican calendrical systems and the cycles of time and meaning they encode In this comprehensive study Elizabeth Hill Boone analyzes the entire extant corpus of Mexican divinatory codices and offers a masterful explanation of the genre as a whole She introduces the sacred divinatory calendar and the calendar priests and diviners who owned and used the books Boone then explains the graphic vocabulary of the calendar and its prophetic forces and describes the organizing principles that structure the codices She shows how they form almanacs that either offer general purpose guidance or focus topically on specific aspects of life such as birth marriage agriculture and rain travel and the forces of the planet Venus Boone also tackles two major areas of controversy the great narrative passage in the Codex Borgia which she freshly interprets as a cosmic narrative of creation and the disputed origins of the codices which she argues grew out of a single religious and divinatory system **Aztec Imperial Strategies** Frances F. Berdan,1996 Papers from the 1986 Summer Seminar Empire Province and Village in Aztec History [The Mixtecs of Colonial Oaxaca](#) Kevin Terraciano,2004-07-01 A history of the Mixtec Indians of southern Mexico this book focuses on several dozen Mixtec communities in the region of Oaxaca during the period from about 1540 to 1750 **Mesoamerican Memory** Stephanie Wood,Amos Megged,2012-11-08 Euro Americans see the Spanish conquest as the main event in the five century history of Mesoamerica but the people who lived there before contact never gave up their own cultures Both before and after conquest indigenous scribes recorded their communities histories and belief systems as well as the events of conquest and its effects and aftermath Today the descendants of those native historians in modern day Mexico and Guatemala still remember

their ancestors stories In Mesoamerican Memory volume editors Amos Megged and Stephanie Wood have gathered the latest scholarship from contributors around the world to compare these various memories and explore how they were preserved and altered over time Rather than dividing Mesoamerica s past into pre contact colonial and modern periods the essays in this volume emphasize continuity from the pre conquest era to the present underscoring the ongoing importance of indigenous texts in creating and preserving community identity history and memory In addition to Nahuatl and Maya recollections contributors examine the indigenous traditions of Mixtec Zapotec Tarascan and Totonac peoples Close analysis of pictorial and alphabetic manuscripts and of social and religious rituals yields insight into community history and memory political relations genealogy ethnic identity and portrayals of the Spanish invaders Drawing on archaeology art history ethnology ethnohistory and linguistics the essays consider the function of manuscripts and ritual in local regional and now national settings Several scholars highlight direct connections between the collective memory of indigenous communities and the struggles of contemporary groups Such modern documents as land titles for example gain legitimacy by referring to ancestral memory Crossing disciplinary methodological and temporal boundaries Mesoamerican Memory advances our understanding of collective memory in Mexico and Guatemala Through diverse sources pictorial and alphabetic archaeological archival and ethnographic readers gain a glimpse into indigenous remembrances that without the research exhibited here might have remained unknown to the outside world

Coloquio internacional "Los Indígenas de México en la época prehispánica y en la actualidad" Maarten Evert Reinoud Gerard Nicolaas Jansen,1982

In the Palace of Nezahualcoyotl Eduardo de J. Douglas,2012-10-03 Around 1542 descendants of the Aztec rulers of Mexico created accounts of the pre Hispanic history of the city of Tetzaco Mexico one of the imperial capitals of the Aztec Empire Painted in iconic script picture writing the Codex Xolotl the Quinatzin Map and the Tlohtzin Map appear to retain and emphasize both pre Hispanic content and also pre Hispanic form despite being produced almost a generation after the Aztecs surrendered to Hern n Cort s in 1521 Yet as this pioneering study makes plain the reality is far more complex Eduardo de J Douglas offers a detailed critical analysis and historical contextualization of the manuscripts to argue that colonial economic political and social concerns affected both the content of the three Tetzcoacan pictorial histories and their archaizing pictorial form As documents composed by indigenous people to assert their standing as legitimate heirs of the Aztec rulers as well as loyal subjects of the Spanish Crown and good Catholics the Tetzcoacan manuscripts qualify as subtle yet shrewd negotiations between indigenous and Spanish systems of signification and between indigenous and Spanish concepts of real property and political rights By reading the Tetzcoacan manuscripts as calculated responses to the changes and challenges posed by Spanish colonization and Christian evangelization Douglas s study significantly contributes to and expands upon the scholarship on central Mexican manuscript painting and recent critical investigations of art and political ideology in colonial Latin America

Stories in Red and Black Elizabeth Hill Boone,2000-01-01 This title offers analysis of Mexican painted

history as an intellectual documentary and pictorial genre The author explores how Mexican historians conceptualized and painted their past and introduces the major pictorial records Aztec annals and cartographic histories and Mixtec screenfolds and lienzos Boone focuses her analysis on the kinds of stories told in the histories and on how the manuscripts work pictorially to encode organize and preserve these narratives This twofold investigation aims to broaden our understanding of how preconquest Mexicans use pictographic history for political and social ends It also demonstrates how graphic writing systems created a broadly understood visual language that communicated effectively across ethnic and linguistic boundaries
