Unitive Thinking:

Mystical Moments and Unitive Thinking Dan Merkur, 1999-02-11 Merkur proposes an alternative to the traditional psychoanalytic explanation of mystical experiences as regression to the solipsism of earliest infancy. He does this by viewing unitive thinking as a line of cognitive development and mystical moments as creative inspirations on unitive topics. Utilizing classical self-reports by Christian, Jewish, and Muslim mystics, Patanjali's Yoga Sutras, and modern Western peak experiences, Merkur argues that experiences of mystical union are manifestations of a broader category of psychological processes that manifest in scientific and moral thought as well as in mysticism. Unconscious as well as conscious unitive thinking is sometimes realistic and sometimes fantastic in patterns that are consistent with cognitive development in general. Mystical moments of unitive thinking may be considered moments of creative inspiration that happen to make use of unitive ideas. Building on the psychoanalytic object relations theory that the self is always in relationship with an object, Merkur argues that the solipsism of some varieties of mystical union always implies unconscious ideas of a love object who is transcendent.

What's Your Story? Ryan Mathews, Watts Wacker, 2008 As usual, these two future finders have their fingers on the pulse of what's happening and what we need to know about. In every business in every organization, the seven most important words these days are "But wait, a story goes with it." You need to read this book to find out why. Alan Webber, Co-founder, Fast Company magazine. A great story sparks our imagination, challenges us to think, and resonates with our collective conscience. Ryan Mathews and Watts Wacker's story about telling stories does exactly this. It is an essential guidebook for capturing and conveying the essence of corporate identities and enriching brands.

Paul A. Laudicina, Managing Officer and Chairman of the Board, A.T. Kearney. Storytelling is the universal human activity. Every society at every stage of history has told stories and listened to them intently and passionately. Stories are how people tell each other who they are, where they came from, how they're unique, what they believe. Stories capture their memories of the past and their hopes for the future. Stories are one more thing, too. They are your most powerful, most underutilized tool for competitive advantage. Whether you know it or not, your business is already telling stories. *What's Your Story?* will help you take control of those stories and make them work for you. Legendary business thinkers Ryan Mathews and Watts Wacker reveal how to craft an unforgettable story, create the back story that makes it believable, make sure your story cuts through today's relentless bombardment of consumer messages, and gets heard, remembered, and acted on.
