Participatory Approaches for an Impact-oriented Project Cycle ,2001 Summarizes findings of the workshop on Participatory Approaches for an Impact

Oriented Project Cycle convened by IFAD and held from 14 to 16 November 2000 **Manual on Project Planning and Programming** ,1998 **Project Management Casebook** David I. Cleland, Karen M. Bursic, 1998 How do project team members get the knowledge skills and attitudes needed to perform effectively One proven method is through the case study approach The book offers 50 case studies that represent the breadth and importance of project management and its impact on the everyday management of projects Each of the cases provides new and unique challenges that have been mastered by the practice of project management Readers will be able to apply the knowledge learned from this casebook in their work The cases enable readers to see how and why projects are used in a wide variety of organizational settings in contemporary life Readers are exposed to both successful and not so successful project management practices The case study approach encourages reader participation and active learning and provides the opportunity to learn something of the real world of project management It is essential in the curricula of project management training for both undergraduate and graduate students as well as for continuing education consulting and in house company training programs The cases were chosen for their importance in discussing the fundamentals of project management Most contain descriptions of actual projects and each is followed by a series of questions to guide readers analysis of the article to maximize the learning process **Project Appraisal** ,1995 *CAPM Certified Associate in Project Management All-in-One Exam Guide* James Lee Haner, 2023-09-08 Complete coverage of all objectives in the 2023 release of the CAPM exam Take the Certified Associate in Project Management CAPM exam with confidence using this highly effective self study guide Written by a project management expert and bestselling author CAPM Certified Associate in Project Management All in One Exam Guide offers complete coverage of every objective on the current version of the test To help you study each chapter contains unique design elements that emphasize important points and aid in retention An appendix 50 Confusing Terms on the CAPM Exam will help you understand the differences in terms that sound similar but have different meanings In addition the book includes more than 450 practice questions along with detailed answer explanations Designed to help you pass the exam with ease this comprehensive guide also serves as an essential on the job reference for project management professionals Covers all exam topics including Project Management Fundamentals and Core Concepts Predictive Plan Based Methodologies Agile Frameworks Methodologies Business Analysis Frameworks Online content includes Practice exams test yourself by CAPM exam domain or take a complete exam Printable flash cards word puzzles and matching exercises for self directed learning Printable CAPM memory card for on the go study CASE is Software Automation Carma L. McClure, 1989 Computer Aided Software Engineering CASE is the technology for automating software development and maintenance This book by one of the acknowledged experts on the subject offers a very practical answer to the 25 year old software crisis Case technology is not at all that new as it builds upon the structured techniques developed by Ed Yourdon James Martin Tom DeMarco and others in the 1970s Many of the structured methodologies they fostered are enabled by CASE **Domain-Specific Application**

Frameworks Mohamed E. Fayad, Ralph E. Johnson, 2000 Object Technology An invaluable collection of domain specific frameworks Domain Specific Application Frameworks Frameworks provide generic software architectures that can be reused indefinitely to generate new applications But they don t readily translate from one business or industry domain to another A telecommunications framework looks very different from a currency trading framework for instance Developers need instruction on how to build frameworks specific to the domains for which they program Now this book CD ROM package gives developers models and much more Each chapter is built around a case study reporting a major framework implementation or customization project The 30 examples contained in the book cover an array of application domains including Flexible manufacturing architectures Computer integrated manufacturing New generation control systems Concurrent engineering Reliable distributed computing High performance Web servers Multimedia telecommunications Networking and telecommunications Industrial visualization And many others The enclosed CD ROM gives you Example frameworks Documentation and manuals Framework code and implementation tips Sample framework architectures and models Design patterns and presentations Animated demonstrations

Development of a new competence and behaviour model for skills in working with people for project managers Eddie Fisher, 2008-06-10 Doctoral Thesis Dissertation from the year 2006 in the subject Business economics Business Management Corporate Governance The Open University Open University Milton Keynes United Kingdom language English abstract The growing penetration of projects as a way of organising work in many organisations has created a shortcoming between what companies expect in terms of project delivery and the way in which their project managers execute projects The constantly changing demands have created a need for project managers to manage the people in their projects more effectively to meet these expectations A review of the general and project management literature has revealed that a shortcoming exists and the nature of this shortcoming What used to be appropriate skills in working with people are no longer adequate now that working practices are changing in response to increases in pressures to achieve better results This thesis has developed a competence and behaviour model for skills in working with people for project managers that provides the means to fill the shortcoming The exploration to develop this model has taken place mainly through interviews with project managers from the community of practice in United Kingdom organisations supplemented by the participatory research observations of the researcher as a practising project management professional The research focus was on the impact humans make in the activities of project management within a socially constructed world The research considered competences and behaviours of skills in working with people for project managers and therefore had to deal with the meaning that people put on their observations As a consequence their descriptions have been collected analysed and interpreted by applying a constructivist interpretivist approach within a phenomenological research paradigm The results from this study are of interest to both academics and the community of practice in project management The new competence and behaviour model of skills in working with people for

project managers can be incorporated in future editions of bodies of knowledge such as those promoted by the PMI APM or IPMA and other people competence models in the area of general management
