In addition, areas such as smart business services, smart homes and digital consumer applications as well as artificial intelligence, quantum computing and automation based on artificial intelligence will be analysed. The book then turns to digital business models in the B2C business to consumer and B2B business to business sectors. Business Model Management Bernd W. Wirtz, 2020-09-30 How are business models purposeful, designed and structured? How can the models be implemented professionally and managed successfully and sustainably? In what ways can existing business models be adapted to the constantly changing conditions? In this clearly structured reference work, Bernd W. Wirtz gives an answer to all these issues and provides the reader with helpful guidance. Although Business Model Management is first and foremost a scientific reference book which comprehensively addresses the theory of business models, with his book Bernd W. Wirtz also turns to practitioners. Not least, the many clearly analyzed case studies of companies in different industries contribute to this practical relevance. My conclusion: Business Model Management is an informative and worthwhile read both for students of business administration as a textbook as well as for experienced strategists and decision makers in the company as a fact-rich practical compendium.

Matthias Müller, Chief Executive Officer, Porsche AG 2010-2015; Chief Executive Officer, Volkswagen AG 2015-2018. In dynamic and complex markets, a well-thought-out business model can be a critical factor for the success of a company. Bernd Wirtz vividly conveys how business models can be employed for strategic competition and success analysis. He structures and explains the major theoretical approaches in the literature and practical solutions in an easy and understandable way. Numerous examples from business practice highlight the importance of business models in the context of strategic management. The book has the potential to become a benchmark on the topic of business models in the German-speaking world.
