*The Value of Culture* Arjo Klamer, 1996 Culture manifests itself in everything human including the ordinary business of everyday life Culture and art have their own value but economic values are also constrained Art sponsorships and subsidies suggest a value that exceeds market price So what is the real value of culture Unlike the usual focus on formal problems which has de cultured and de moralized the practice of economics this book brings together economists philosophers historians political scientists and artists to try to sort out the value of culture This is a book not only for economists and social scientists but also for anybody actively involved in the world of the arts and culture

**Inherent and Instrumental Values** G. John M. Abbarno, 2014-12-10 The essays in this book range broadly over different aspects of value theory and include contributions by Nicholas Rescher Frances Kamm Barry Smith and Jan Narveson Portions examine the theoretical foundations of values and valuation exploring the rational groundwork for judgments Other aspects appealing to value distinctions of inherent intrinsic and instrumental drawn most notably by C I Lewis bring to light matters of aesthetic social political ethical and ontological issues Throughout *Inherent and Instrumental Values* the authors address questions assessing the intrinsic worth of utility of

actions and whether manual or professional labor can hold an equal value rating and the implications of this assessment In other portions of the anthology authors explore the extent to which such value categories above help clarify and assess moral issues we encounter in everyday life Among some analyzed in this book are racism and affirmative action abortion euthanasia homelessness care and friendship The theme of the nature of value and the role of valuation we encounter in the days of our life provide a basis for examining other aspects of axiology that lie beyond the scope of this work

*Philosophical Theories of Political Cinema* Angelo Emanuele Cioffi, 2021-10-31 This book utilizes philosophical tools to build up a framework for the classification analysis and assessment of political cinema The author first maps the category of political cinema clarifying what it means for a film to be political and then analyzes the relation between the value of a film as a political film and its value as art Through philosophical enquiry Angelo Emanuele Cioffi builds up a framework that could be of use in art critical practice and that can help with the classification and assessment of political films Grounded in analytic philosophy of art and cognitivist film theory with insights from political science political philosophy epistemology and cognitive science the book presents a unique analysis of the relation between films and the political This theory is tested with detailed case studies and the author uses specific films as examples of the applicability and explanatory power of this theoretical framework As such this book will be of interest not just to film studies film theory and political philosophy scholars but to anyone with an interest in political film aesthetic practice and philosophy of art

**The American Magazine of Art**, 1918 **Bulletin of Photography** John Bartlett, Frank V. Chambers, Francis Stapleton Chambers, 1914 Well-Being as Value Fulfillment Valerie Tiberius, 2018-10-18 What is human well being Valerie Tiberius argues that our lives go well to the extent that we succeed in terms of what matters to us emotionally reflectively and over the long term In other words well being consists in fulfilling or realizing our appropriate values over time In the first half of the book Tiberius sets out the theory of well being as value fulfilment She explains what valuing is and what it is to fulfill values over time In the second half of the book she applies the theory to the problem of how to help others particularly our friends We don't always know how to provide the help we know others need but we also have the problem of knowing what help they need in the first place and this is a problem that requires ethical thinking Tiberius argues that when we want to help others achieve greater well being we should pay attention to their values This entails attending to how others values fit together how they understand what it means to succeed in terms of these values and how things could change for them over time Being a good and helpful friend then requires cultivating some habits of humility that overcome our tendency to think we know what's good for other people without really understanding what it's like to be them
