Selepa, 2024-01-01 Are you baffled by all the hype about hybrid work Do you read studies that leave you wondering how they apply to you Are you hoping to take advantage of the new workplace flexibilities but don't know exactly how It's time for straight talk Whether you are an owner concerned about the longevity of your company a manager determined to build a productive and happy team or a rank and file employee pursuing a career in the new hybrid paradigm this book has what you need Apply the practical ideas found in these checklists and you will go from simply coping with the new work reality to unlocking its tremendous potential *Product Management in Practice* Matt LeMay, 2022-05-16 Product management has become a critical function for modern organizations from small startups to corporate enterprises And yet the day to day work of product management remains largely misunderstood In theory product managers are high flying visionaries who build products that people love In practice they're hard working facilitators who bring clarity and focus to their teams In this thoroughly revised and expanded edition Matt LeMay provides real world guidance for current and aspiring product managers Updated for the era of remote and hybrid work this book provides actionable answers to product management's most persistent and confounding questions starting with What exactly am I supposed to do all day With this book you'll learn What the day to day work of product management entails and how to excel at it Why no job title or description will resolve the ambiguity of your role How to bridge the false dichotomy between strategy and execution Why the temptation to focus on decks and documentation can be bad for your team and for you How to prioritize your time and pick your battles *Virtual Technical Services* Mary Beth Weber, Melissa De Fino, 2022-04-25 Prior to the COVID pandemic there was little published information to guide technical services operations on how to deal with crises and emergencies Viewed as a backroom operation by administration little thought historically has been given to how these employees might protect equipment and resources and continue to provide services that seamlessly support the rest of the library *Virtual Technical Services A Handbook* is the first to address emergency and crisis planning specifically for technical services The authors address how to create an emergency plan and how to prepare for an uncertain future that will undoubtedly include other threats to our health and safety We discuss how the pivot to remote work can revolutionize technical services librarianship and allow us to better serve the needs of a 21st Century library As the WFH period extended longer than anticipated libraries and other organizations realized both the challenges and benefits of working remotely WFH is about more than just doing one's job and we focus on employees as individuals with needs that include work life balance self care and the flexibility to meet life circumstances including childcare eldercare and appointments A unique feature of our book is the focus on employee well being including burnout and self care Prior to COVID 19 employee well being was typically not emphasized as part of personnel management The risks to our health and safety and being removed from the physical workplace provided the opportunity to re-examine priorities and reframe them to forge a stronger and more

collaborative relationship between employers and employees Technical services personnel in particular are subject to burnout as their operations are frequently understaffed and they face competing demands of serving both libraries physical needs and supporting electronic and digital resources Management in a remote work environment has challenges that are not present in an on site operation Communication setting expectations and documentation and training take on added significance when WFH as does accountability Our book addresses these aspects of management through a WFH lens The book also covers the return to work after a shift to remote whether it is completely on site hybrid or some combination Normalization determining staffing levels employee accommodations and an adjustment period are discussed Since most technical services personnel have not previously had to pivot to remote on short notice and for an extended period the book addresses these issues for libraries as they make decisions about repopulating their workplaces
