The Documentary Sources of Greek History Max Cary, 1927 Sources for Ancient History Michael Crawford, Emilio Gabba, Fergus Millar, Anthony M. Snodgrass, 1983-11-17 If a scholar wishes to create a picture of a topical society in all its aspects there is little of what he needs to know that he cannot know although there may still be much that he cannot understand For the history of Greece and Rome there is a great deal that is simply unknowable From the end of the archaic age of Greece there is an unbroken sequence of works by Greek and later Roman historians down to the end of antiquity Their vision and range of interest were often limited and much of what they produced has been lost Some help may be derived from the documentary material supplied in antiquity material that was the product of officials organising public activities or heads of families organising their affairs or individuals leaving their mark on the world Beyond this the evidence of archaeology and numismatics may also be helpful The four essays in this book set out to characterise the nature of the ancient literary tradition the inscriptional material the archaeological and numismatic evidence and to explain how and for what purposes they may be used

Problems in the History of Ancient Greece Donald Kagan, Gregory Viggiano, 2010 This collection of contested problems in the history of Ancient Greece aims to enhance and deepen the experience of any college student Each chapter within Problems in the History of Ancient Greece is a self contained unit that presents a key problem of continuing interest among historians In each case there is a selection of pertinent ancient sources in translation with a number of modern viewpoints also presented In this way students may experience the nature of weighing and evaluating sources the problem of posing meaningful and enlightening questions the need to change hypotheses in the light of new evidence or new insights and the necessity in some cases of suspending judgment Note The problems selected for this collection span the chronological period usually covered in ancient Greek courses Second they were selected because they have been the subject of relatively recent study Finally they are meant to be sufficiently varied in topic and approach in order to expose the student to a variety of historical methods and techniques

A Source Book of Greek History Fred Morrow Fling, 2015-06-25

Excerpt from A Source Book of Greek History. During the past fifteen years, the question of the use of sources in the teaching of history in secondary schools has occupied somewhat constantly the attention of history teachers and has given rise to a considerable controversial literature. The discussion has evidently passed

through a first stage and one thing at least seems to be settled it is the opinion of the best trained teachers of history the country over that historical sources should be used in the secondary schools That the publishers of text books believe that there is a demand for this kind of material and that the demand is likely to increase is demonstrated by the number of source books issued in the last few years Another proof of the change that has come over the teaching of history is found in the recent historical narratives intended for secondary schools and in revised editions of old texts In all of these books a prominent place is given to references to the sources If the question Shall sources be used may be regarded as settled in the affirmative the further question How shall sources be used is still a matter of controversy The common practice is to use them as collateral reading or as illustrative material In regard to the benefits derived from this use of source material there is no difference of opinion It is only when the possibility of doing something more than simply substitute sources for secondary narratives in the assignment of collateral reading the possibility of doing something with sources that cannot be done with secondary narratives is pointed out it is only then that the trouble begins About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
