*Secret Incomes of the Soviet State Budget* Igor Birman, 2013-12-01 As far as I know relatively little attention has been devoted in the West to the study of various financial problems in the USSR Among 1 the works I have seen are Gallik et al The Soviet 1968 evidently the most important work on this theme Powell Monetary 1972 in which the statistics of monetary circulation in the USSR are examined Laulan Banking 1973 in which some of the questions I examine are also addressed and CIA The Soviet 1977 which is about an analysis of the budget Moreover many specialists have turned to the analysis of the expenditures of the budget in an attempt to determine the amount of financing of military expenditures for example Holzman Financial 1975 Due to the scarcity of data a large number of important problems have remained unstudied in all these works One of these is the following If we believe official Soviet statistics the state budget of the USSR regularly comes out with an excess of revenues over expenditures each year a budget profit is formed This in itself already seems quite strange We all know that the Soviet economy although it developed quite rapidly especially in the past has experienced constant and serious difficulties we know that the plans are rarely fulfilled and that there were years of great crop failures **Financial Checks on Soviet Defense Expenditures** Franklyn D.
