Transformative Curriculum Leadership:

Transformative Curriculum Leadership James George Henderson, Rosemary Gornik, 2007 Grounded in extensive professional experiences this text advances a type of curriculum problem solving leadership consistent with the ideals of democratic society The new organization of this edition makes the ideas within this text accessible practical and realistic and offers practitioners detailed guidance on how to cultivate systemic problem solving and sophisticated curriculum decision making in their own school environments BOOK JACKET [Creating a Culture of Support for Teacher Leaders](#) Rosemary Gornik, Wendy L. Samford, 2018-02-09 Within the pages of this book you will meet six K 12 practicing public school administrators and two university instructors who give concise study and practice guidance on two aims 1 to build the awareness and capabilities to become a lead professional for democratic ways of living and 2 to develop the school culture needed to support this teacher leadership Teacher leadership is not in addition to the many initiatives administrators face each day Rather you will read stories about teacher leadership incorporated into the initiatives that already exist By distributing leadership administrators organically utilize the gifts and talents that individual teachers already possess defying prescribed roles and specific job descriptions A key feature in this text is its problem solving orientation and the interplay among teaching learning leading research that raises critical questions for professionals ready to understand the nuances of educational growth in societies with democratic ideals In spite of the political demands for efficiency and accountability six administrators worked with teacher leaders in different contexts to develop and exercise the wisdom which honors the democratic ideals upon which our society was built [International Handbook of Educational Leadership and Social \(In\)Justice](#) Ira Bogotch, Carolyn M. Shields, 2013-11-11 The International Handbook on Educational Leadership and Social In Justice creates a first of its kind international forum on conceptualizing the meanings of social justice and leadership research approaches in studying social justice and combating social injustices school university and teacher leadership for social justice advocacy and advocates for social justice socio cultural representations of social injustices glocal policies and leadership development as interventions The Handbook is as much forward looking as it is a retrospective review of educational research literatures on social justice from a variety of educational subfields including educational leadership higher education academic networks special education health education teacher education professional development policy analyses and multicultural education The Handbook celebrates the promises of social justice while providing the educational leadership research community with concrete contextualized illustrations on how to address inequities and combat social political and economic injustices through the processes of education in societies and educational institutions around the world **Out of the Dark** Wendy Leigh Samford, 2016-07-12 Out of the Dark is a call for teacher leaders to take a stand against the current neoliberal take over of our educational system today This book investigates where this political power hold began theorizes why is it so hard for us to change what is happening and then explores theory into practice for

supporting the development of a democratic curriculum Out of the Dark highlights example schools in various states that are fighting the monopoly of standardization by implementing their own version of visionary democratic education This book is purposefully heavy on references as to encourage teachers to become curriculum leaders through research and complicated conversation that they have with themselves and with each other It is time to stand together against the over utilization and magnified importance of standardized testing in our educational system in the United States The time is now to envision a democratic education based on an eclectic compilation of curriculum theory and fight for the significant educational contribution of our own professional wisdom prompting democratic empowerment for our students
