**Beyond the Translator's Invisibility** Peter J. Freeth, Rafael Treviño, 2024-01-08

The question of whether to disclose that a text is a translation and thereby give visibility to the translator has dominated discussions on translation throughout history Despite becoming one of the most ubiquitous terms in translation studies however the concept of translator in visibility is often criticized for being vague overly adaptable and grounded in literary contexts This interdisciplinary volume therefore draws on concepts from fields such as sociology the digital humanities and interpreting studies to develop and operationalize theoretical understandings of translator visibility beyond these existing criticisms and limitations Through empirical case studies spanning areas including social media research reception studies institutional translation and literary translation this volume demonstrates the value of understanding the visibilities of translators and translation in the plural and adds much needed nuance to one of translation studies most pervasive polarizing and imprecise concepts

*Invisible translation in literary reviews* Jana Schäfer, 2016-02-25

Essay from the year 2015 in the subject English Language and Literature Studies Linguistics grade 2 0 University College Dublin course Translation Theory language English abstract Translation of literary texts suffer always an ungrateful position in academic and cultural discourse Generally there are only two ways of treatment no acknowledgment at all or criticism about the unfaithfulness One can decide which way he prefers but translators today s are mostly praised for their invisibility and not for their actual work This is especially the case in book reviews where the focus is on the meaning

thus the content of the book instead on the translator's work. Already in 1994 Lawrence Venuti wrote his influential essay about *The Translator's Invisibility* concerning the focus on fluency in translation instead of a foreignization. Here book reviews show exactly this trend. Nevertheless the fact of being from another culture comes into account in their attempt of settling the book into their own culture. Linked to that is André Lefevere's theory of literature as a system which he depicts in his essay *Mother Courage's Cucumbers*. Text System and Refraction in a Theory of Literature 1982. In my essay I would like to show how both Lefevere's and Venuti's concepts and criticism are internalised in contemporary book reviews and therefore in our literary culture in general. Concerning that I will shortly present the theoretical background of Venuti and Lefevere with their most interesting points for literary criticism. Followed by that is the case study where I analyse three different literary reviews and finish with a contemporary translator dispute in newspapers. Thus the invisibility of the translator as well as the disappearance of the source culture will be highlighted.
