Journal Manchester Geographical Society, 1891 **The Mississippi River and Its Source** Jacob Vradenberg
Brower, 1893 This volume of the Collections of the Minnesota Historical Society is devoted to a historical discussion by Jacob
Vredenberg Brower 1844 1905 about the source and headwaters of the Mississippi River combined with his extensive
hydrographic and topographic surveys Brower summarizes the major European and white American exploratory trips to the
area Based on a scientific survey of the Itasca Basin that he made under the authority of the Minnesota Historical Society
Brower concludes that the true source of the Mississippi is neither Itasca Lake nor Elk Lake nor even the stream discovered
by Jean N Nicolet 1836 called Nicolet s Infant Mississippi River but the Greater Ultimate Reservoir which receives its water
supply from aerial precipitation and stores it in various component lakes and springs Some of these lakes include Hernando
de Soto the Triplets Whipple Morrison and Floating Moss the streams that proceed from them include the beginnings of the
Nicolet as well as the Mississippi From Nicolet s middle lake the main river proceeds in an unbroken channel to the Gulf
After lobbying successfully to have this headwater region preserved as Itasca State Park 1891 Brower served as its first
commissioner The appendix includes an historical account of how the Mississippi and the Lake of the Woods came to form
part of the northwestern boundary of the United States Its author was Albert James Hill 1823 1895 who was also
instrumental in the creation of Brower s report *The Geographical Journal* , 1909 **The Province and the States**
