Soviet Economic Development from Lenin to Khrushchev Robert William Davies, 1998-03-28 This book provides a comprehensive survey of Soviet economic development from 1917 to 1965 in the context of the pre revolutionary economy In these years the Soviet Union negotiated the first stages of modern industrialisation and then after the defeat of Nazi Germany and its allies emerged as one of the two world superpowers This was also the first attempt to construct a planned socialist order These developments resulted in great economic achievements at great human cost Using the results of recent Russian and Western research Professor Davies discusses the inherent faults and strengths of the system and pays particular attention to the major controversies Was the Russian Revolution doomed to failure from the outset Could the mixed economy of the 1920s have led to a democratic socialist economy What was the influence of Soviet economic development on the rest of the world

The Economic Development of the USSR Roger Munting, 2023-06-14 *The Economic Development of the USSR 1982* examines the economic advances the Soviet Union made as the first major economy to adopt full scale socialist planning It argues that the Soviet experience demonstrates that remarkable quantitative economic progress can be achieved but at a price which Western democracies would not tolerate Moreover while the planning and control mechanism of the USSR produced striking results in the case of agriculture it often failed to produce satisfactory results The book provides an impartial assessment of the merits and defects of the Soviet planning system which also served as a model for many other Communist countries

Western Technology and Soviet Economic Development Antony Cyril Sutton, 1971 *Western Technology and Soviet Economic Development 1930 to 1945* Antony C Sutton, 1973-10 THIS is the second volume of an empirical study of the relationship between Western technology and entrepreneurship and the economic growth of the Soviet Union The continuing transfer of skills and technology to the Soviet Union through the medium of foreign firms and engineers in the period 1930 to 1945 can only be characterized as extraordinary A thorough and systematic search unearthed only two major items SK B synthetic rubber and the Ramzin once through boiler and little more than a handful of lesser designs several aircraft a machine gun and a motorless combine which could accurately be called the result of Soviet

technology the balance was transferred from the West

Western Technology and Soviet Economic Development
