**Innovators in Digital News** Lucy Küng, 2015-07-16 News organisations are struggling with technology transitions and fearful for their future Yet some organisations are succeeding Why are organisations such as Vice and BuzzFeed investing in journalism and why are pedigree journalists joining them Why are news organisations making journalists redundant but recruiting technologists Why does everyone seem to be embracing native advertising Why are some news organisations more innovative than others Drawing on extensive first hand research this book explains how different international media organisations approach digital news and pinpoints the common organisational factors that help build their success

**Spaces of Sustainability** Mark Whitehead, 2007-01-24 Spaces of Sustainability is an engaging and accessible introduction to the key philosophical ideas which lie behind the principles of sustainable development This topical resource discusses key contemporary issues including global warming third world poverty transnational citizenship and globalization Combining the latest research and theoretical frameworks Spaces of Sustainability offers a unique insight into contemporary attempts to create a more sustainable society and introduces the debates surrounding sustainable development through a series of interesting transcontinental case studies These include discussions of land use conflicts in the USA agricultural reform in the Indian Punjab environmental planning in the Barents Sea community forest development in Kenya transport policies in Mexico City and political reform in Russia Written in an approachable and concise manner this is essential reading for students of geography planning environmental politics and urban studies It is illustrated throughout with figures and plates along with a range of explanatory help boxes and useful web links

*The U.S. Intelligence Community* Jeffrey T Richelson, 2018-05-04 The role of intelligence in US government operations has changed dramatically and is now more critical than ever to domestic security and foreign policy This authoritative and highly researched book written by Jeffrey T Richelson provides a detailed overview of America s vast intelligence empire from its organizations and operations to its management structure Drawing from a multitude of sources including hundreds of official documents The US Intelligence Community allows students to understand the full scope of intelligence organizations and activities and gives valuable support to policymakers and military operations The seventh edition has been fully revised to include a new chapter on the major issues confronting the intelligence community including secrecy and leaks domestic spying and congressional oversight as well as revamped chapters on signals intelligence and cyber collection geospatial intelligence and open sources The inclusion of more maps tables and photos as well as electronic briefing books on the book s Web site makes The US Intelligence Community an even more valuable and engaging resource for students
