Spaces of Capital/spaces of Resistance Chris Hesketh, 2017 Based on fieldwork in Chiapas and Oaxaca Mexico this book examines the production of space within the global political economy Drawing on multiple disciplines Hesketh s discussion of state formation in Mexico takes us beyond the national level to explore the interplay between global regional national and sub national articulations of power

The Limits to Capital David Harvey, 2018-11-06 A major rereading of Marx s critique of political economy Now a classic of Marxian economics *The Limits to Capital* provides one of the best theoretical guides to the history and geography of capitalist development In this edition Harvey updates his seminal text with a substantial discussion of the turmoil in world markets today Delving into concepts such as fictitious capital and uneven geographical development Harvey takes the reader step by step through layers of crisis formation beginning with Marx s controversial argument concerning the falling rate of profit and closing with a timely foray into the geopolitical and geographical implications of Marx s work

[Urbanization and Production of Space](#) Chao Ye, Liang Zhuang, 2023-05-18 This book studies China s urbanization with the theory of production of space The authors redefine the production of space and build a new theoretical framework for understanding the evolving relations between urbanization and spatial production Since the reform and opening up especially in the last twenty years the logic of spatial production has dominated China s urbanization The authors choose the most representative cases such as the Yangtze River Delta Urban Agglomeration Jiangsu Province National High tech Industrial Development Zone New Urban District State Level New Area University Town and some villages to conduct a series of empirical studies on production of space at the macro meso and micro scales Through an in depth analysis of the interaction between social spaces and urbanization influenced by power capital and class the book reveals that the essence of China s urbanization is dominated by the logic of spatial production The authors finally propose that an important shift toward humanism should be made in the future development of China s new type urbanization emphasizing more even and adequate development between different regions and between urban and rural areas which also provides new ideas for the theory and practice of urbanization worldwide This book can be read and referenced by researchers in the fields of urban and regional studies geography sociology urban and rural planning management etc It can also be used as a teaching reference book for teachers researchers and students of scientific research institutions in related fields

Digital Geographies—Theory, Space, and Communities Abdul Shaban, 2025-01-02 This machine generated volume with chapter introductions by the human expert showcases how digital technologies are having deep transformative impacts on geographies and temporalities of social political economic and personal lives They are altering perceptions and physicality of space and time They are giving birth to digital communities and societies where

distance remains of little significance Virtual spaces and ICT have disrupted state sovereignties often liquidating their physical national boundaries The rise of the digital economy shows that new important raw materials for the future are information rather than coal oil and minerals Digitalisation is also leading to several contradictory processes of democratisation rising welfare of the citizens as well as surveillance peripheralisation and exclusion States are taking pride in digitalising their services to the citizens with massive consequences on the welfare of those facing digital divides As a departure to and in addition to the usual understanding of digitalisation society and space the present volume engages with some of the critical questions while reviewing existing literature What are the space relations of digital technologies What are the forms and consequences of changing physical space human relations to digital space human relations How is the sense of time and space changing with pervasive performatives of in real time and virtual realities or with perceptible or portable spaces In what ways does digitalisation relate to knowledge and power Why and how must we theorise the digitalisation led transformative processes of sociality materiality and their spatialities The book will be useful for teachers researchers and students engaged in this new area of digital geography especially in social science and its subfields of sociology economics political sciences anthropology psychology development studies policy studies social work urban studies and planning For the full picture the volume can be read in combination with its companion volume on Digital Geographies Urbanisation Economy and Modelling *Uneven Development* Neil Smith,2008 Offers a full theory of uneven geographical development entwining theories of space and nature with a critique of capitalist development Featuring analyses of the production of nature and the politics of scale the author anticipated many of the uneven contours that mark neoliberal globalization Gately's Universal Educator Charles E. Beale,M. R. Gately,1883 *Spaces of Global Capitalism* David Harvey,2006 Fiscal crises have cascaded across much of the developing world with devastating results from Mexico to Indonesia Russia and Argentina The extreme volatility in contemporary political economic fortunes seems to mock our best efforts to understand the forces that drive development in the world economy David Harvey is the single most important geographer writing today and a leading social theorist of our age offering a comprehensive critique of contemporary capitalism In this fascinating book he shows the way forward for just such an understanding enlarging upon the key themes in his recent work the development of neoliberalism the spread of inequalities across the globe and space as a key theoretical concept Both a major declaration of a new research programme and a concise introduction to David Harvey's central concerns this book will be essential reading for scholars and students across the humanities and social sciences **The Space Economy** Chad Anderson,2023-04-06 Climb aboard an astronomical business opportunity before it takes off The new Space Age has already begun but there is still time for you to get in early In *The Space Economy* Capitalize on the Greatest Business Opportunity of Our Lifetime accomplished venture capitalist and Space Capital founder Chad Anderson offers investors entrepreneurs and aspiring professionals powerful tools and information for understanding how space based

technologies have and will continue to transform enterprise government and consumer markets for decades to come Whether you re seeking entrepreneurial ideas worth exploring a career worth pursuing or investments worth making the burgeoning Space Economy represents a hidden opportunity larger than the nascent internet at the dawn of the Millennium From global positioning geospatial intelligence and satellite communications to commercial human spaceflight and interplanetary transportation this book explains how and why the space economy is the greatest opportunity of our lifetime Readers will learn How to develop a thesis for investing in innovation at a global scale The major and minor players in a business ecosystem of epic potential and how to identify and exploit vast areas of blue sky opportunity still unexplored Lessons from entrepreneurs and investors on what it takes to thrive in this new arena including case studies of exciting startups successfully leveraging space based technology In depth advice on hiring and retaining out of this world talent in an increasingly competitive landscape The in demand skills and aptitudes of space careers and tips on networking and getting hired at the hottest companies Deep dives into the legal political and diplomatic implications of space based entrepreneurship A fascinating and accessible treatment of the latest greatest and most promising area of business opportunity since the internet The Space Economy will be essential reading for anyone interested in seizing a brighter future
