Syntax Of Time Current Studies In Linguistics 37:

Rethinking Parameters Luis Eguren, Olga Fernandez-Soriano, Amaya Mendikoetxea, 2016-01-15 Parameters of linguistic variation were originally conceived within the Chomskyan Principles and Parameters Theory as UG determined options that were associated with grammatical principles and had a rich deductive structure. This characterization of parametric differences among languages has changed significantly over the years, especially so with the advent of Minimalism. This book collects a representative sample of current generative research on the status, origin, and size of parameters. Often taking diverging views, the papers in the volume address some or all of the main debated topics in parametric syntax, i.e. are parameters provided by UG or do they constitute emergent properties arising from points of underspecification in which components of the language faculty are parameters to be found? Do clustering effects actually hold across languages? Do macroparameters exist alongside microparameters? Are there parameter hierarchies? Which is the origin and role of parameters in the process of language acquisition? The volume is organized into two parts: Part I, 'The nature of variation and parameters', brings together studies whose main goal is to discuss general issues related to parameters or variation more generally; Part II, 'Parameters in the analysis of language variation: case studies', includes a number of works that deal with the empirical basis and proper formulation of well-known particular parameters: the Null Subject Parameter, the NP DP Parameter, the Compounding Parameter, the Wh Parameter, and the Analyticity Parameter.

Parameter Theory and Linguistic Change Charlotte Galves, Sonia Cyrino, Ruth Lopes, Filomena Sandalo, Juanito Avelar, 2012-11-01 This book focuses on some of the most important issues in historical syntax. In a series of close examinations of languages from old Egyptian to modern Afrikaans, leading scholars present new work on Afro-Asiatic, Latin and Romance, Germanic, Albanian, Celtic, Indo-Iranian, and Japanese. The book revolves around the linked themes of parametric theory and the dynamics of language change. The former is a key element in the search for explanatory adequacy in historical syntax; if the notion of imperfect learning, for example, explains a large element of grammatical change, it is vital to understand how parameters are set in language acquisition and how they might have been set differently in previous generations. The authors test particular hypotheses against data from different times and places, with the aim of understanding the relationship between language variation and the dynamics of change. Is it possible, for example, to reconcile the unidirectionality of change, predominantly expressed in the phenomenon of grammaticalization, with the multidirectionality predicted by generativist approaches? In terms of the richness of the data it examines, the broad range of languages it discusses, and the use it makes of linguistic theory, this is an outstanding book, not least in the contribution it makes to the understanding of language change.

Finiteness Matters Kristin Melum Eide, 2016-08-25 Although standardly recognized by linguists of many diverse theoretical persuasions, finiteness continues to figure among the most poorly understood concepts of linguistic theory. This was eloquently stated by Ledgeway (2000, 2007) and remains true even today. The present volume thus aims to shed some

much needed light on this area of linguistic theorizing with eleven chapters approaching finiteness phenomena from the fields of syntax semantics language acquisition and Creole studies and providing data from a range of different languages Traditionally approaches to finiteness within the Principles and Parameters framework have seen as their main aim to understand the relation between the morphological exponents of finiteness and the syntactic operations seemingly depending on these exponents The papers in this volume mostly take their point of departure from this more traditional view on finiteness before elaborating on modifying and diverging from this tradition in novel and interesting ways Linguistic Variation Issues: Case and Agreement in Northern Russian Participial Constructions Civardi, Antonio, 2016-10-12 This study offers a novel approach to a longstanding problem in Slavic Linguistics the formal representation of the Northern Russian participial constructions in n o t o Unlike previous works the methodological stance adopted by the author focuses on singling out all the relevant patterns of variation and on pursuing a unified explanation for them The key to the solution of the puzzle is the idea that the participial affix n t and the agreement inflections are not just pieces of morphology inserted post syntactically but true heads that enter the computation and are able to manipulate the argumental roles of the verb and to check the EPP The author s proposal is properly framed in the context of current debate on interlanguage variation Language ,2007 **York Papers in Linguistics** ,2004 **Grammatical Change** Rachel Hendery, Jennifer Hendriks, 2010 This volume comprises a collection of papers on the theme of grammatical change that evolved out of a workshop sponsored by the Centre for Research on Language Change The Australian National University The papers extend the boundaries of what has been addressed under the label of grammatical change by applying theories and models of grammatical change to new evidence by illuminating the historical relationships between grammar and other levels of linguistics and by extending the range of languages that have been examined from the perspective of grammatical change Languages discussed include Murriny Patha Walpiri Gurindji Walmajarri and Kayardild Lardil Yukulta English Dutch German Afrikaans French Italian Portuguese Spanish Serbo Croatian Bulgarian Macedonian Slovenian Albanian Greek Old Church Slavonic Tocharian Mandarin Cantonese Quechua Basque and Tok Pisin Forthcoming Books Rose Arny, 2004 **Pragmatics** ,2006 *American Book Publishing Record* ,2006 **Current Index to Journals in Education** ,1998 **Studies in Language** ,2007 *Romanic Review* Henry Alfred Todd, 1928 The Modern Language Quarterly ,1901 *Circular - Educational Research Service* Educational Research Service (Arlington, Va.), 1925 **Journal of Speech and Hearing Research** ,1994 *International Directory of Anthropologists* Melville Jean Herskovits, 1950 **Linguistics and Language Behavior Abstracts** ,2006-07 **Resources in Education** ,1983 Current Research in Britain F T Energy, 1996-09
