*Tai Chi, Qi Gong and Standing Meditation* Meraz Ahmed, 2020-09-04 This book is a book about Tai Chi Qi Gong and Standing Meditation The book is both an introduction to and an in depth presentation The book addresses the beginner the more experienced student and the teacher It covers the Martial as well as the Civil art of Tai Chi There are many training systems that are focused on strengthening the body but that have very little or no relevance to the strengthening and development of the mind In reverse there exist many meditative practices which are focused on the strengthening and development of the mind but in the same way neglect the body Tai Chi Qi Gong and Standing Meditation are training systems which both strengthen the mind the ability to use the body more appropriately as well as strengthening the internal organs They will help you find tranquility balance rest and regeneration and help the individual to become better at exactly what he or she yearns for They increase the ability to focus and at the same time develop that part of our nervous system that deals with calm rest and recovery In this current day and age the obsession with how looking fit equals good health is a relatively new phenomenon when seen in relation to how long mankind has existed Tight hard and knotted muscles are erringly seen as being fit It can be difficult to accept and understand that training is definitively not about exhausting oneself in order to achieve good healthy results Especially as we have been indoctrinated by phrases like no pain no gain Reality is rather different Systems of movement like Tai Chi and Qi Gong which strongly encourage the balancing of bones and joints and where the movements are aimed at being liquid with a release of the joints while letting go of all unnecessary muscle tension are a far better bid at an appropriate form of exercise This way the muscles are being exercised
