Understanding Consumer Choice

Gordon R. Foxall

Understanding Consumer Choice:

Understanding Consumer Choice G. Foxall, 2005-03-11 Understanding Consumer Choice shows how attempts to relate consumers attitudes and actions have implicitly incorporated measures of the very variables at the heart of a situational theory of consumer choice These are the buyer s consumption history and the physical and social setting in which consumer behaviour occurs The book explores the capacity of the resulting model to explain consumer behaviour in retail and consumption situations and to elucidate brand choice The result is a novel interrogation of cognitive and behavioural perspectives an overarching philosophy for consumer research

Technology and Consumption Ruby Roy Dholakia, 2012-05-16 Technology and Household Consumption is a comprehensive text that provides insights into technology s impact on consumer behavior and the household environment Consumption and consumer behavior has become a very important subject of study that is now covered in many disciplines including family economics culture studies and feminist women studies In the first section this book provides a historical perspective on how consumer behaviors have changed because of technology and how technology itself has changed Data on ownership and expenditures is detailed in describing the penetration of technology in the household and changes over time In the examination of demographics and social changes an emphasis is placed on women and children As it is important to understand the entry paths and factors that influence them the book also introduces a research framework to understanding the adoption and utilization of household technologies In the second section the book examines specific household technologies and consumption experiences including shopping choices and behaviors entertainment outlets and availability communications technologies and working at home The book concludes with a section on the relationships between marketers and consumers

Interpreting Consumer Choice Gordon Foxall, 2009-09-10 Interpretive consumer research usually proceeds with a minimum of structure and preconceptions This book presents a more structured approach than is usual showing how a simple framework that embodies the rewards and costs associated with consumer choice can be used to interpret a wide range of consumer behaviours from everyday purchasing and saving innovative choice imitation green consumer behavior to compulsive behaviors such as addictions to shopping to gambling to alcohol and other drugs etc Foxall takes a qualitative approach to interpreting behavior focusing on the epistemological problems that arise in such research and emphasizing the emotional as well as cognitive aspects of consumption The author argues that consumer behaviour can be understood with the aid of a very simple model that proposes how the consequences of consumption impact consumers subsequent choices The objective is to show that a basic model can be used to interpret consumer behaviour in general not in isolation from the marketing influences that shape it but as a course of human choice that is dynamically linked with managerial concerns

Consumer Behavior Analysis Donald A. Hantula, Victoria K. Wells, 2014-01-21 Consumption is the primary economic activity in our post industrial society We are consumers not producers Consumer behavior analysis is leading heterodox marketing scholarship

and innovative applied behavioral work with much to offer both constituencies This volume shows how consumer behavior analysis fits within a larger scale approach to marketing consumer psychology behavior analysis and organizational behavior management Describing both theoretical analyses and empirical studies including laboratory experiments in e commerce in store experiments in grocery shopping and an analysis of the counterfeit goods market this book is a working example of translational research It contains tools and studies to help understand contemporary consumer behavior particularly for those in marketing Scholars will appreciate the theory and real world applications evident in each chapter when considering their own research direction All students of marketing theory behavior analysis and consumer choice will find this collection a thought provoking tool for further understanding of a new behavioral approach to marketing strategy consumer decisions and marketing firms This book comprises articles originally published in the Journal of Organizational Behavior Management

Understanding Consumers of Food Products Lynn Frewer, Hans Van Trijp, 2006-12-22 In order for food businesses scientists and policy makers to develop successful products services and policies it is essential that they understand food consumers and how they decide which products to buy Food consumer behaviour is the result of various factors including the motivations of different consumers the attributes of specific foods and the environment in which food choices occur Recognising diversity between individual consumers different stages of life and different cultural contexts is increasingly important as markets become increasingly diverse and international The book begins with a comprehensive introduction and analysis of the key drivers of consumer food choices such as the environment and sensory product features Part two examines the role of consumers attitudes towards quality and marketing and their views on food preparation and technology Part three covers cultural and individual differences in food choice as well as addressing potentially influential factors such as age and gender Important topics such as public health and methods to change consumers preferences for unhealthy foods are discussed in part four The final section concludes with advice on developing coherent safety policies and the consumers responsibility for food production and consumption Understanding consumers of food products is a standard reference for all those in the food industry concerned with product development and regulation Develop an understanding of buyer behaviour to assist developing successful products Recognise the diversity between consumers and learn how to cater for their needs Covers cultural and individual differences in food choice

The Continuum of Consumer Choice Gordon R. Foxall, 2024-03-12 Human consumption is multi faceted and so requires inter disciplinary exploration in order to explain a spectrum of experiences that is at once particular and allpervading Consumer choice is a microcosm of human activity which transcends the purview of the archetypal marketing or consumer psychology textbook Its perspective is that of social science itself This book understands the study of consumer choice as a paradigm of human socio economic activity and seeks further understanding of its socio economic and philosophical bases The Continuum of Consumer Choice provides a novel view of consumer choice based on the temporal horizon of the consumer giving rise to a spectrum of consumption styles from the everyday to the extreme The focus is on explaining this continuum in behavioral cognitive and neurophysiological terms affording the reader a unique perspective on the intellectual basis of consumer psychology and marketing The reader gains insight into a critical combination of economic psychology neurophysiology and philosophy which contributes to establishing marketing and consumer research as scholarly academic pursuits The book s particular focus is the proper place and form of an intentional cognitive and perceptual explanation of consumer choice This is an essential monograph for advanced students in consumer psychology and marketing as well as for researchers in these areas It is particularly relevant to marketing and consumer theory providing appreciation of their scholarly foundations It also appeals to students lecturers and researchers in social science generally who are alert to the intellectual potential of consumer psychology and marketing as contributors to a full understanding of human behavior and experience
