## **Water Infrastructure Info:**

*Water infrastructure information on federal and state financial assistance.* ,2001 U S drinking water and wastewater systems encompass thousands of treatment facilities collection facilities and related works and well over a million miles of pipes and conduits While the investment made over decades in these facilities is enormous even more funds will be needed in the future to support efforts to maintain clean and safe water The estimated cost of the investments needed to repair replace or upgrade aging facilities accommodate the nation s growing population and meet new water quality standards ranges from 300 billion to 1 trillion over the next 20 years according to various estimates

**Water Infrastructure: Information on Federal and State Financial Assistance** ,2001 U S drinking water and wastewater systems encompass thousands of treatment facilities collection facilities and related works and well over a million miles of pipes and conduits While the investment made over decades in these facilities is enormous even more funds will be needed in the future to support efforts to maintain clean and safe water The estimated cost of the investments needed to repair replace or upgrade aging facilities accommodate the nation s growing population and meet new water quality standards ranges from 300 billion to 1 trillion over the next 20 years according to various estimates

Water Infrastructure U. S. Government Accountability Office (,2013-06 According to the Environmental Protection Agency EPA and water utility industry groups communities will need as much as 1 trillion during the next 20 years to repair replace or upgrade aging drinking water and wastewater facilities accommodate a growing population and meet new water quality standards GAO found that the amount of funds obtained from user charges and other local sources of revenue was less than the full cost of providing service including operation and maintenance debt service depreciation and taxes for more than a quarter of drinking water utilities and more than 4 out of 10 wastewater utilities in their most recent fiscal year GAO also found that more than a quarter of utilities lacked plans recommended by utility associations for managing their existing capital assets but nearly all had plans that identify future capital improvement needs A privatization agreement s potential to generate profits is the key factor influencing decisions by private companies that enter into such agreements with publicly owned utilities or the governmental entities they serve according to the companies GAO contacted

*Urban Water Infrastructure* Neil S. Grigg,1986-04-30 Very Good No Highlights or Markup all pages are intact

*Water Infrastructure* J. Alfredo Gomez,2016-12-08 Many midsize and large cities throughout the U S have lost a substantial percentage of their population These cities face the challenge of a corresponding decline in utility revenues from a loss of ratepayers which makes it difficult to address their water infrastructure needs Overall water and wastewater utilities across the U S face substantial costs to maintain upgrade or replace aging and deteriorating infrastructure approximately 655 billion for water and wastewater utilities over the next 20 years This report examines 1 the economic characteristics of such cities and their water and wastewater infrastructure needs 2 strategies that selected cities and utilities have used to address their infrastructure needs and the affordability of their

water and wastewater rates and 3 what existing federal programs and policies if any could assist such cities in addressing their needs Tables and figures This is a print on demand report
