Stagestruck Filmmaker David Mayer, 2009-03 An actor, a vaudevillian, and a dramatist before he became a filmmaker, D. W. Griffith used the resources of theatre to great purpose and to great ends. In pioneering the quintessentially modern medium of film from the 1890s to the 1930s, he drew from older, more broadly appealing stage forms of melodrama, comedy, vaudeville, and variety. In *Stagestruck Filmmaker*, David Mayer brings Griffith's process vividly to life, offering detailed and valuable insights into the racial, ethnic, class, and gender issues of these transitional decades. Combining the raw materials of theatre, circus, minstrelsy, and dance with the newer visual codes of motion pictures, Griffith became the first acknowledged artist of American film. *Birth of a Nation*, in particular, demonstrates the degree to which he was influenced by the racist justifications and distorting interpretations of the Civil War and the Reconstruction era. Moving through the major phases of Griffith's career in chapters organized around key films or groups of films, Mayer provides a mesmerizing account of the American stage and cinema in the final years of the nineteenth century and the first three decades of the twentieth century. Griffith's relationship to the theatre was intricate, complex, and enduring. Long recognized as the dominant creative figure of American motion pictures throughout twenty-six years of making more than five hundred films, he pillaged, adapted, reshaped, revitalized, preserved, and extolled. By historicizing his representations of race, ethnicity, and otherness, Mayer places Griffith within an

overall template of American life in the years when film rivaled and then surpassed the theatre in popularity **Downeast LNG Project**, 2009 *Shanghai Filmmaking* HUANG Xuelei, 2014-09-03 In *Shanghai Filmmaking* Huang Xuelei invites readers to go on an intimate detailed behind the scenes tour of the world of early Chinese cinema She paints a nuanced picture of the Mingxing Motion Picture Company the leading Chinese film studio in the 1920s and 1930s and argues that Shanghai filmmaking involved a series of border crossing practices Shanghai filmmaking developed in a matrix of global cultural production and distribution and interacted closely with print culture and theatre People from allegedly antagonistic political groupings worked closely with each other to bring a new form of visual culture and a new body of knowledge to an audience in and outside China By exploring various border crossings this book sheds new light on the power of popular cultural production during China's modern transformation **Translation Studies and China** Haiping Yan, Haina Jin, Paul Gladston, 2023-09-22 Focusing on transculturality this edited volume explores how the role of translation and the idea of untranslatability in the transformative complementation of different civilizations facilitates the transcultural connection between Chinese and other cultures in the modern era Bringing together established international scholars and emerging new voices this collection explores the linguistic social and cultural implications of translation and transculturality The 13 chapters not only discuss the translation of literature but also break new ground by addressing the translation of cinema performance and the visual arts which are active bearers of modern and contemporary culture that are often neglected by academics Our volume is ground breaking in its trans disciplinary attention to the study of translation related to China and such a trans disciplinarity should serve as a ground breaking leverage for other areas of humanities as well Through an engagement with these diverse fields the title aims not only to reflect on how translation has reproduced values concepts and cultural forms but also to stimulate the emergence of new possibilities in the dynamic transcultural interplay between China and the diverse national cultural linguistic and contexts of Europe the Americas and Asia It shows how cultures have been appropriated misunderstood transformed and reconstructed through processes of linguistic mediation as well as how knowledge understanding and connections have been generated through transculturality The book will be a must read for scholars and students of translation studies transcultural studies and Chinese studies **Scripts for the Stage** Bert Cardullo, 2021-02-10 *Scripts for the Stage Textual Analysis from Shakespeare to Shepard and Beyond* is a play analysis textbook that contains 12 long essays and 4 short ones on a number of geographically diverse historically significant dramas and dramatists among them Phaedra Buried Child Antigone A Streetcar Named Desire The Hairy Ape Our Town The Birthday Party David Hare The Glass Menagerie Death of a Salesman Old Times Miss Julie The Little Foxes Henry V Love's Labour's Lost Bernard Shaw Hamlet Titus Andronicus The Merchant of Venice Of Mice and Men A Midsummer Night's Dream Edmund and Bertolt Brecht Written with university students and possibly also advanced high school students in mind these critical essays thus cover some of the central plays treated and central issues raised in today's dramatic literature courses

and will provide students with practical models to help them improve their own writing and analytical skills The author is a close reader committed to a detailed yet relatively objective examination of the structure style imagery and language of a play Moreover he is concerned chiefly with dramatic analysis that can be of benefit to directors designers and even actors that is with analysis of character action dialogue and setting that can be translated into concepts for theatrical production or that can at least provide the kind of understanding of a play with which a theater practitioner could fruitfully quarrel Most so called play analysis texts are books about the methods and techniques of play analysis but contain few if any actual instructive play analyses like those in *Scripts for the Stage Textual Analysis from Shakespeare to Shepard and Beyond* To this end the essays in this book are clear and readable that is sophisticated and meaty yet not overly technical or jargon heavy Thus they are also excellent introductions to their respective plays as well as important contributions to the field of drama studies in general *Scripts for the Stage* finally a useful critical apparatus bibliographies a glossary of dramatic terms a guide to play analysis topics for writing and discussion and a comprehensive index

American History/American Film John E. O'Connor, Martin A. Jackson, 2016-10-06 In this pioneering work sixteen historians analyse individual films for deeper insight into US institutions values and lifestyles Linking all of the essays is the belief that film holds much of value for the historian seeking to understand and interpret American history and culture This title will be equally valuable for students and scholars in history using film for analysis as well as film students and scholars exploring the way social and historical circumstances are reflected and represented in film

The Saturday Review, 1922 [The Griffith Project, Volume 10](#) Paolo Cherchi Usai, 2019-07-25 No other silent film director has been so extensively studied as D W Griffith However only a small group of his more than five hundred films had been the subject of a systematic analysis Now for the first time in film studies the complete creative output of Griffith from *Professional Jealousy* 1907 to *The Struggle* 1931 is explored in this multi volume collection of contributions from an international team of leading scholars in the field Created as a companion to the ongoing retrospective held by the Pordenone Silent Film Festival *The Griffith Project* is now an indispensable guide to his work This is the final volume of the project

Screening the Stage Bert Cardullo, 2006 This book examines the historical cultural and aesthetic relationships between theater and film As we enter the 21st century almost all artists students and critics working in theater will have had earlier and greater exposure to film than to theater In fact film has become central to the way in which we perceive and formulate stories images ideas and sounds At the same time film and video occupy an increasingly significant place in theater study both for the adaptation of plays and for the documentation and preservation of theatrical performances Yet far too often theater and film artists as well as educators make the jump from one medium to the other without being fully aware of the ways in which the qualities of each medium affect content and artistic expression This book is intended to fill such a gap by providing a theoretical and practical foundation for understanding the effect that film and drama have had and continue to have on each other's development Moreover this study provides a history of the relationship

between drama and cinema starting with the pre cinematic late 19th century impulse towards capturing spectacular action on the stage and examining the artistic and commercial interaction between movies and plays both in popular and experimental work throughout the 20th century Important subjects treated in this book include stage versus screen acting the adaptation process itself the theatrical as well as the cinematic avant garde and the portability or adaptability of dramatic character
