Payne,2011-11-04 *White Collar Crime* A Text Reader part of the text reader series in criminology and criminal justice incorporates contemporary and classic readings some including policy implications accompanied by original text that provides a theoretical framework and context for students The comprehensive coverage of the book includes crimes by workers sales oriented systems crimes in the health care system crimes by criminal justice professionals and politicians crimes in the educational system crimes in the economic and technological systems crimes by employees in the housing industry corporate crime environmental crime explanations of white collar crime the police and court responses to white collar crime and the corrections sub system and white collar crime Features of the book include key points in focus box inserts discussion questions section summaries and photos *Why Not Jail?* Rena Steinzor,2015 The US Department of Justice is under fire for failing to prosecute banks that caused the 2008 economic meltdown because they are too big to jail Prosecutors have long neglected to hold corporate executives accountable for chronic mistakes that kill and injure workers and customers This book the first of its kind analyzes five industrial catastrophes that have killed or sickened consumers and workers or caused irrevocable harm to the environment

From the Texas City refinery explosion to the Upper Big Branch mine collapse the root causes of these preventable disasters include crimes of commission and omission Although federal prosecutors have made a start on holding low level managers liable far more aggressive prosecution is appropriate as a matter of law policy and justice Written in accessible and jargon free language this book recommends innovative interpretations of existing laws to elevate the prosecution of white collar crime at the federal and state levels *Revue Canadienne Du Droit de Commerce*, 1990 **Henry Ford** Carol Gelderman, 1981-02-01 **The "Bad Boys" of Wall Street** Laura Lynn Hansen, 2004 **Drawing Conclusions on Henry Ford** Rudolph Alvarado, Sonya Alvarado, 2001 Uses historical cartoons to shape a new view of Henry Ford **Fraud** Michael Levi, 1999 The International library of Criminology Criminal Justice and Penology is an important publishing initiative that brings together the most significant contemporary published journal essays in current criminology criminal justice and penology The series makes available to researchers academics and students of criminology an extensive range of essays which are indispensable for obtaining an overview of the latest theories and findings in this fast developing field **Detroit in Perspective**, 1982 *Caution! Barnett, 1994 In 1980 with the passage of the Comprehensive Environmental Response Compensation and Liability Act Congress created the Superfund as a mechanism to clean up the toxic legacy of the industrial and chemical revolutions Over a decade later the consensus is that the program has failed too much has been spent and too little accomplished Harold Barnett unravels the history of this failure examining the economic and political factors that contributed to it and suggesting policy changes necessary to create a viable cleanup program Barnett argues that the Superfund has failed because of conflict over who will pay the toxic debt and the impact of this conflict on interdependent funding and enforcement decisions at state regional and national levels He argues that the inability of legislators and regulatory agencies to take effective and timely action is related to the economic and political power of major corporate polluters Spanning the Reagan and Bush administrations the book highlights the ongoing conflict between deregulatory policies and environmental programs Originally published in 1994 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value *Rethinking White-Collar Crime* Tony G. Poveda, 1994-08-30 This is a review and synthesis of the literature on white collar crime It is an attempt to encourage critical thought about the nature of crime law and criminal justice by examining white collar crime One of the unique themes of the work is an ongoing comparison between white collar and conventional crime with the implication that learning about white collar crime simultaneously teaches us something about conventional crime and criminal justice [Sex, Gender, and Social](#)

Change Gerhard Falk, 1998-06-11 Sex Gender and Social Change details the drastic changes in the attitudes toward gender in society since the seventeenth century and its effects on each gender Gerhard Falk examines the change in roles of men and women as the power structure evens out between the genders He begins with the place of women in the working world as they gain prominence as executives in the military as religious leaders and in the political arena He then moves into less studied aspects such as the move toward gender neutrality in fields like nursing and engineering and the difference between the involvement of the genders in crime Finally he approaches the evolution and future of personal lives as roles change within the family and women take greater control over their sex lives Perspectives in Criminal Law Anthony N.
