Young,1999-06 The urgency to do something about juvenile crime has escalated with its incursion into middle class neighbourhoods the ubiquity of gang related graffiti and the spectre of schoolyard shootings Understanding the normal interpersonal processes in antisocial behaviour along with the normal interpersonal processes that build resiliency demands examination of a wide array of psychosocial factors and their interactions Youth Subcultures in Fiction, Film and Other Media Nick Bentley,Beth Johnson,Andrzej Zieleniec,2018-03-31 This collection explores the representation articulation and construction of youth subcultures in a range of texts and contexts It brings together scholars working in literary studies screen studies sociology and cultural studies whose research interests lie in the aesthetics and cultural politics of youth It contributes to and extends contemporary theoretical perspectives around youth and youth cultures Contributors examine a range of topics including bad girl fiction of the 1950s novels by subcultural writers such as Colin MacInnes Alex Wheatle and Courttia Newland as well as screen representations of Mods the 1990s Rave culture heavy metal and the Manchester scene Others explore interventions into subcultural theory with respect to metal subcultural locations abjection graffiti cultures and the potential of subcultures to resist dominant power frameworks in both historical and contemporary contexts **A Young Disciple** John Alonzo Clark,1882 *The Chautauquan* ,1898 **Narrating Practice with Children and Adolescents** Mery F. Diaz,Benjamin Shepard,2019-09-24 In Narrating Practice with Children and Adolescents social workers sociologists researchers and helping professionals share engaging and evocative stories of practice that aim to center the young client s story Drawing on work with a variety of disadvantaged populations in New York City and around the world they seek to raise awareness of the diversity of the individual experiences of youth They make use of a variety of narrative approaches to offer new perspectives on a range of critical health care mental health and social issues that shape the lives of children and adolescents The book considers the narratives we tell about the lives and experiences of children and adolescents and proposes counternarratives that challenge dominant ideas about childhood Contributors examine the environments and structures that shape the lives of children and youth from an ecological lens From their stories emerge questions about how those working with young clients might respond to a changing landscape How do we define and construct childhood How do poverty and inequality impact children s health and welfare How is childhood lived at the intersection of race class and gender How can practitioners engage children and adolescents through culturally responsive and democratic processes Offering new frameworks for reflecting on social work practice the essays in Narrating Practice with Children and Adolescents also serve as a vehicle for exploration of children s agency and voice **Encyclopedia of Criminological Theory** Francis T. Cullen,Pamela Wilcox,2010-09-23 Consistently excellent The level and coverage of the content make this an invaluable reference for

students studying criminology or taking criminal psychology modules at degree level and beyond Adam Toccock Reference Reviews In discussing a criminology topic lecturers and course textbooks often toss out names of theorists or make a sideways reference to a particular theory and move on as if assuming their student audience possesses the necessary background to appreciate and integrate the reference However university reference librarians can tell you this is often far from the case Students often approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics the who what where how and why if you will And reference librarians often find it difficult to guide these students to a quick one stop source In response SAGE Reference is publishing the two volume Encyclopedia of Criminological Theory available in both print and electronic formats This serves as a reference source for anyone interested in the roots of contemporary criminological theory Drawing together a team of international scholars it examines the global landscape of all the key theories and the theorists behind them presenting them in the context needed to understand their strengths and weaknesses In addition to interpretations of long established theories it also offers essays on cutting edge research as one might find in a handbook And like an unabridged dictionary it provides concise to the point definitions of key concepts ideas schools and figures Coverage will include contexts and concepts in criminological theory the social construction of crime policy implications of theory diversity and intercultural contexts conflict theory rational choice theories conservative criminology feminist theory

The Jury Under Fire Brian H. Bornstein, Edie Greene, 2017-01-23 Although the jury is often referred to as one of the bulwarks of the American justice system it regularly comes under attack Recent changes to trial procedures such as reducing jury size allowing non unanimous verdicts and rewriting jury instructions in plain English were designed to promote greater efficiency and adherence to the law Other changes such as capping damages and replacing jurors with judges as arbiters in complex trials seem designed to restrict the role of laypeople in trial outcomes Whether these innovations are implemented to facilitate the administration of justice or due to the belief that juries have excessive power and make irrational decisions they raise a host of questions about their effects on juries judgments and about justice Policymakers sometimes make incorrect assumptions about jury behavior with the result that some reform efforts have had surprising and unintended consequences The Jury Under Fire reviews a number of controversial beliefs about juries as well as the implications of these views for jury reform It reviews up to date research on both criminal and civil juries that uses a variety of research methodologies simulations archival analyses field studies and juror interviews Each chapter focuses on a mistaken assumption or myth about jurors or juries critiques these myths and then uses social science research findings to suggest appropriate reforms Chapters discuss the experience of serving as a juror jury selection and jury size and the impact of evidence from eyewitnesses experts confessions and juvenile offenders The book also covers the process of deciding damages and punishment and the role of emotions in jurors decision making and it compares jurors and judges decisions Finally it reviews a broad range of efforts to reform the jury including the most promising reforms that have a solid backing

in research Featuring highly visible trials to illustrate key points The Jury Under Fire will interest researchers in psychology and the law practicing attorneys and policymakers as well as students and trainees in these areas *Wayward Youth, [adapted from the 2nd German Edition of Verwahrloster Jugend,] by August Aichhorn.
