Russian Mathematicians In The 20th Century Yakov Sinai, 2003-10-08 In the 20th century many mathematicians in Russia made great contributions to the field of mathematics This invaluable book which presents the main achievements of Russian mathematicians in that century is the first most comprehensive book on Russian mathematicians It has been produced as a gesture of respect and appreciation for those mathematicians and it will serve as a good reference and an inspiration for future mathematicians It presents differences in mathematical styles and focuses on Soviet mathematicians who often discussed what to do rather than how to do it Thus the book will be valued beyond historical documentation The editor

Professor Yakov Sinai a distinguished Russian mathematician has taken pains to select leading Russian mathematicians such as Lyapunov Luzin Egorov Kolmogorov Pontryagin Vinogradov Sobolev Petrovski and Krein and their most important works One can for example find works of Lyapunov which parallel those of Poincar and works of Luzin whose analysis plays a very important role in the history of Russian mathematics Kolmogorov has established the foundations of probability based on analysis The editor has tried to provide some parity and at the same time included papers that are of interest even today The original works of the great mathematicians will prove to be enjoyable to readers and useful to the many researchers who are preserving the interest in how mathematics was done in the former Soviet Union
