Where Rivers Run:

Where Rivers Run Gary McGuffin,1988 **Miscellanea** Derek Payne,2023-12 A few poems and prose with some exploring the futility of war Imaginary talks with characters that have made their mark Some fantasy some humour and some horror stories to tickle the spine at Halloween and let s not forget Christmas And why not try to explain ghosts There are also a few whodunits for the budding detective When engrossed in a book I find punctuation and style disappear and only the story matters Everything else seems irrelevant My mind only absorbs what it thinks is the most important For this reason I have written some of the work with a subtle difference in style to see if it spoils the enjoyment My bet is you won t mind

Hoekstra,2013-06-19 Water is not only used in the domestic context but also in agriculture and industry in the production of commercial goods from food to paper The water footprint is an indicator of freshwater use that looks at both direct and indirect use of water by a consumer or producer The water footprint of an individual community or business is defined as the total volume of freshwater that is used to produce the goods and services consumed by the individual or community or produced by the business This book shows how the water footprint concept can be used to quantify and map the water use behind consumption and how it can guide reduction of water use to a sustainable level With a number of case studies it illustrates water use along supply chains and that water consumption at one place is often linked to water use at another For example it is calculated that it takes 15 000 litres of water to produce 1 kg of beef or 8 000 litres of water to produce a pair of jeans The book shows that imports of water intensive products can highly benefit water scarce countries but also that this creates a dependency on foreign water resources The book demonstrates how water scarce regions sometimes nevertheless use lots of water for making export products It raises the issue of sustainable consumption how can consumers businesses and governments get involved in reducing the water footprints of final consumer goods The Teachers' Aid ,1890 **Scribner's Magazine** ,1899 **Scribner's Magazine** Robert Bridges,Alfred Sheppard Dashiell,Harlan Logan,1899 Journal of the Royal Geological Society of Ireland Royal Geological Society of Ireland,1873 *Journal of the Royal Geological Society of Ireland* ,1873
