Where The Waves Fall:

Where the Waves Fall K.R. Howe, 2023-05-03 *Where the Waves Fall* 1984 centres the stories of the Pacific Islanders and how they were affected by European explorers and colonisers in this unique account of human settlement and cultural interchange in the Pacific islands It follows the fortunes of the seafarers who discovered island after island in the world's largest ocean traces the development of their civilisations and examines in depth the interaction between them and the newcomers European explorers traders beachcombers missionaries merchants who from the sixteenth century came in an increasing series of waves The book's framework enables the author to throw new light on hitherto isolated events Novel suggestions are advanced as to why some islands became kingdoms in the earlier years of European contact and why others did not and of how and why missionaries were accepted on some islands but not on others Nor does Professor Howe shrink from provocative and at times controversial arguments concerning the ambitions and strategies of island leaders and indeed the overall nature and extent of the initiatives taken by the islanders [Where the Waves Fall South Sea Islands History](#) K. [Changing Song](#) Miriam Silverberg, 2019-01-15 Nakano Sigeharu 1902-1979 leading twentieth century Japanese poet and social critic transformed the revolutionary culture movement of the 1920s Positioning Nakano's thought within the very history of Japanese Marxism Miriam Silverberg applies textual analyses to his pre war writings to form a new perspective on the history of the politics and culture of the Japanese left Her book relates Nakano to the Western Marxist tradition recognizes the existence of a Japanese Marxist theory of commodity culture and uses this theory to illuminate the era In particular Silverberg addresses how

Nakano like his European contemporaries worked toward a critique of mass culture illustrating how Japanese thinkers in the 1920s and 1930s adopted Marxism as the dominant method of political and intellectual inquiry. This book draws on Marx's writings and those of Georg Lukacs, Walter Benjamin, Antonio Gramsci, Bertolt Brecht, and Mikhail Bakhtin to present Nakano as a Marxist critic and poet. Close reading of Nakano's essays, poems, most of them appearing for the first time in English, fiction, and prison letters trace Nakano's changing song or consciousness through four stages from his discovery of history in the mid 1920s to his refusal to be silenced during the late 1930s when he produced a series of scathing attacks on intensifying state repression. Miriam Silverberg is Assistant Professor of History at the University of California Los Angeles. Originally published in 1990, The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

World Christianity and Indigenous Experience David Lindenfeld, 2021-05-20. In this book David Lindenfeld proposes a new dimension to the study of world history. Here he explores the global expansion of Christianity since 1500 from the perspectives of the indigenous people who were affected by it and helped change it, giving them active agency. Integrating the study of religion into world history, his volume surveys indigenous experience in colonial Latin America, Native North America, Africa, and the African diaspora, the Middle East, India, East Asia, and the Pacific. Lindenfeld demonstrates how religion is closely interwoven with political, economic, and social history. Wide-ranging in scope and offering a synoptic perspective of our interconnected world, Lindenfeld combines in-depth analysis of individual regions with comprehensive global coverage. He also provides a new vocabulary with a spectrum ranging from resistance to acceptance and commitment to Christianity that articulates the range and complexity of the indigenous conversion experience. Lindenfeld's cross-cultural reflections provide a compelling alternative to the Western narrative of progressive development.
