Thunder's Gambit Book 2 of Chronicles of Syracis Cyrus Thorn, 2026-03-23 In Syracis peace is a rumour humming under the floorboards Six months after the war of light and silence Daelios Thunder sleeps beneath the eastern tower sealed in stone wrapped in wards spoken of only in whispers It ended one war by making every admiral and priest imagine what would happen if it woke angry Now the world has started answering back Across the gulf Kyros reforges its fleets and its faith under a new doctrine called the Reclamation In the high places exiles and visionaries hear glass sing and see cities half reflected half burning Deep below the waves Pyrosia veins pulse without human touch and divers talk of shapes in the dark that listen when you speak When a merchant vessel drifts home with its crew standing silent on deck eyes fixed inland as if hearing a sermon Daelios understands Thunder was never silenced It was only patient Pressed into the role of deterrent and saviour Daelios walks a narrowing line between invention and annihilation Every council meeting becomes a test of how much terror a city can live under Every small adjustment to the Quiet Thunder's restraints feels like carving a new commandment into the bones of the world Samyra raised to put faith above all now commands warriors who carry the scars of the last war and the rumours of the next Her order is splitting between those who would trust Thunder as a necessary shield and those who would see it destroyed along with its maker To protect Syracis she must decide whether she still believes in a god that forbids the sound she helped unleash or in the man who's beginning to suspect that creation itself can grow a conscience As tremors follow miners voices as lamps across the coast take on a breathing rhythm of their own rival empires pirates and zealots all race to decide who will own the sky when the world finishes learning to speak When Thunder moves again it won't be obeying anyone's orders Thunder's Gambit is the second book in *The Fire Between Worlds* a low magic high tension fantasy trilogy about dangerous inventions fragile faith and the cost of keeping people alive with tools that can end cities Perfect for readers who like engineering minded magic political and naval intrigue and stories where every miracle carries a countdown
