Which Identity For Which Europe:

Which Identity for which Europe? Antje Herrberg, 1998 The northern territories of the former Soviet Union remain an under researched and thus under represented region in European studies even though an understanding of the political social and economic forces shaping these new nation states is of importance to the stability of Europe as a whole Thus this book explores questions relating to European identity in the northern part of the former Soviet Union in particular the Baltic countries with an emphasis on Estonia and Latvia but also on Belarus Lithuania and Russia The authors are social and political scientists and psychologists from Belarus Denmark Estonia and Latvia *European Identity* Inés María Gómez-Chacón, 2003-01-01 This book on European Identity aims to promote reflection on the mutual relationship between educational processes and European construction It attempts to get down to what this means at the everyday level the notion of European Identity for all citizens specially in the educational field and identify elements for the promotion and anchorage of this concept To this end the authors have contemplated articulating the topic around the axis individual group society and the content has been distributed in two blocks europe read from an educational perspective and European Identity new challenges for the school

The Legal Elements of European Identity Elspeth Guild, 2004-01-01 The individual has become visible throughout Europe and within its institutions as a potential or actual rights holder He or she is no longer defined as visible or invisible in law by the nation state alone In today s Europe he or she establishes identity that is the rights to entry residence work family life and protection from expulsion through a multilayered legal structure involving the nation state the EU and the Council of Europe and all their political administrative and judicial arenas In this remarkable study Elspeth Guild examines the ways in which law in Europe defines the status of the individual and his or her entitlements as regards identity Among her enlightening approaches to this complex subject the following may be listed the right to move across borders the limitations of citizenship of the Union as currently construed social benefits of citizenship residence immigration family reunification human rights of foreigners asylum expulsion and readmission racial discrimination and long resident third country nationals The analysis includes extensive reference to relevant cases especially European Court of Justice and European Court of Human Rights decisions This is a work of great value and insight As more and more legislation is adopted in the area of European citizenship courts will increasingly be called upon to articulate the relationship of individuals to the territory and society in which they find themselves And as this inevitable development is defined all jurists and legal academics who care for civil society in Europe will discover this deeply considered book afresh

Why Europe? Problems of Culture and Identity J. Andrew, M. Crook, D. Holmes, E. Kolinsky, 2000-02-24 This volume Why Europe Problems of Culture and Identity Media Film Gender Youth and Education addresses a range of issues which underlie the notions of European identity Among them are what does it mean to be a European What ideologies have shaped the political debate over the last two centuries What place will minorities find in the Europe of the twenty first century What roles will

women play in the future communities Will Europe become more open to diversity or become increasingly introspective a fortress Europe **Debating Political Identity and Legitimacy in the European Union** Sonia Lucarelli, Furio Cerutti, Vivien Ann Schmidt, 2011 **Dynamics of National Identity and Transnational Identities in the Process of European Integration** Elena Marushiakova, 2021-02-03 This collection was inspired by the international conference Dynamics of National Identity and Transnational Identities in the Process of European Integration organized by the Balkan Ethnology Department of the Ethnographic Institute and Museum at the Bulgarian Academy of Sciences and realized as project of the European Commission Jean Monnet Action Program for the support of Study and Research Centers The book opens a debate on the changing notions of identity in the region of Central and Eastern Europe on the base of analysis of social developments influenced by EU accession and EU integration process The most important aspect is the analysis of processes of breaking up the borders of national identity and transition towards new forms of transnational identities and emerging of consciousness of All European unity The book has a dual focus on general topics related to the study of national and transnational identities and on the process of European integration It brings together the work of researchers not only from different parts of Europe from France to Russia but from USA and Asia too This book is a starting point for East West discussion and brings new knowledge that will be an invaluable contribution to the common European research area

European National Identities Roland Vogt, Wayne Cristaudo, Andreas Leutzsch, 2014-02-04 Making sense of the perplexing diversity of Europe is a challenging task How compatible are national identities in Europe What makes Europe European What do Europeans have in common **European National Identities** explores the diversity of European states nations and peoples In doing so the editors focus on the origins and elements of different national identities in Europe and different themes of national self understanding Each chapter contributes a unique view of national identities gravitating around myth historical experiences and traumas values ethnic and linguistic differences and religious fault lines This work grounds European national identities within cultural historical and political dynamics which makes the work approachable for many readers including historians sociologists and political scientists In addition the editors illustrate that national identities continue to be a source of contention and a challenge to political developments the demands of immigrants and minorities and the dynamics of European integration This book draws particular attention to identity shifts and conflicts within individual European countries Rethinking European Spatial Policy as a Hologram Luigi Doria, Valeria Fedeli, Carla Tedesco, 2006 Bringing together case studies from several European countries this book provides an in depth examination of the evolution of European spatial policy It offers an experimentation of new interpretative approaches to spatial planning which will prove essential to the international debate Cultural Diversity, European Identity and the Legitimacy of the EU Dieter Fuchs, Hans-Dieter Klingemann, 2011 As a consequence of various rounds of EU enlargements the degree of cultural diversity in Europe has intensified a phenomenon which is increasingly perceived as problematic by many EU citizens This

fascinating book not only empirically explores the current state of the identity and the legitimacy of the EU as viewed by its citizens but also evaluates their attitudes towards it The expert contributors show that the development of a European identity and a common European culture is a prerequisite for European integration that European identity and a common political culture will not develop rapidly but emerge slowly and that the beginnings of a European identity and a common European culture are currently emerging The roles of civil society organizations and political parties are examined within this context and an explanatory model with subjective predictors of the attitudes towards the EU is tested The empirical analysis is underpinned by a theoretical framework incorporating operational definitions and conceptual discussion of legitimacy and identity This intriguing and thought provoking book will be of great interest to academics researchers and students focusing on political science and international relations Citizens of Europe? M. Bruter,2005-08-11 This book shows empirically for the first time how a mass European identity has emerged across the EU member states between 1970 and the present day Beyond this novel approach it also offers a whole new theory of political identities based on two civic and cultural components Michael Bruter shows how multiple identities reinforce rather than exclude each other and studies in depth the unsuspected impact of the media and political institutions on the emergence of new political identities Europe in Search of Its Identity Robert Marjolin,1981 **Multiculturalism and American Democracy** Symposium on Science, Reason, and Modern Democracy,1998 The fourteen essays in this volume address the pros and cons of multiculturalism and explore its relationship with liberal democracy **The British Noctuae and Their Varieties** Tutt,1892 **Journal of Comparative Pathology and Therapeutics** ,1919 **The British Noctuae and Their Varieties** James William Tutt,1892 **Appleton's European Guide Book for English-speaking Travellers.
