## Why Berts Not A Christian:

Why Bert's Not a Christian Ben Young, 2005-03-01 So why is Bert not a Christian Simple He has his reasons for not believing I m not a Christian because it s true for you but not for me because all paths lead to God because all Christians are hypocrites because evolution is true because the Bible is full of myths How would you respond to Bert Can you give a rational defense for your faith in God Or perhaps you are a skeptic like Bert and you have yet to hear a convincing answer to your objections Why Bert s Not a Christian gives you reasoned responses to the most common challenges to the Christian faith Whether you are an open minded skeptic looking for some answers or a convinced believer seeking to articulate your beliefs more effectively this hard hitting and fast paced book is just for you **The Lookout for Christ and the Church** ,1903

*The Guilt Cure* Nancy Carter Pennington, Lawrence H. Staples, 2011-09-21 The Guilt Cure addresses spiritual and psychological means to treat and expiate guilt and its neurotic counterparts One of the great paradoxes of guilt is that despite its useful contributions to our lives it can also be potentially dangerous It is a major cause of anxiety and depression and if untreated or expiated in some way guilt can be deadly This seminal body of work about the psychological implications of guilt reaches deep into humanity's collective experience of guilt and finds persuasive psychological reasons for guilt's role and purpose that go far beyond conventionally held religious explanations The conventional view is that guilt's primary function is the protection and maintenance of morals While guilt admittedly contributes to the protection and maintenance of morals this is by no means its only role Nor is it even its most important role Guilt is complicated and paradoxical It serves the psyche and life itself in a number of ways beyond its role in the protection of conventional morality The Guilt Cure examines the many faces of guilt including its more important function in the creation and maintenance of consciousness its place in the self regulatory system of the psyche its effects on our psychological development and its impact on our mental health and wellbeing
