ice involved him in the renewed British interest in arctic maritime exploration after the Napoleonic Wars The Introduction to this volume contains a major reappraisal of Scoresby s role especially in regard to his alleged mistreatment by John Barrow Second Secretary of the Admiralty The volume also contains an appendix by Fred M Walker on the building of wooden whaleships such as the Baffin that were capable of routine ice navigation under sail as far north as 80 N based on Scoresby s account as Owners Representative at the beginning of the 1820 journal A master mariner, the life and adventures of captain Robert William Eastwick, ed. by H.
