background into the origin of life a perspective on the function of energy and an insight into the energy of life John is just a
character through which to convey the concept of how to control ones existences while walking the road of life He represents
the six billion carbon life forms on the third rock in this small galaxy that is the envelope of living materials of atoms and
matter These are presented in the form of Homo sapiens the dominant species among the billions of species that reside on
this rock This provides an explanation on the special energy that fuels the brain and provides it life giving abilities It is an
insight into the scientific knowledge and intelligence that is needed to understand the existence of life as it started and
progressed This offers some alternatives to the age old beliefs that have dominated the social circles of existing and it gives a
method to control the hectic life into which the species has evolved John lives in a world that just keeps increasing in the
speed of existence necessary to survive He is an example of the ability to change the route that has existed so long that it
probably has become the norm instead of the exception John is an example of the Homo sapien from the time of reproduction
until the road of life is terminated and its lifes energy is transferred to be recycled for another generation **Home Life in**
