Soviet Psychoprisoners:

Soviet Psychoprisoners Harvey Fireside, Zhores A. Medvedev, 1982-01-15 The first official condemnation of political abuse of psychiatry in the USSR to be made by an international psychiatric organization came on August 30 1977 On that date the General Assembly governing body of the World Psychiatric Association WPA adopted a resolution of Britain's Royal College of Psychiatrists against the systematic abuse of psychiatry for political purposes in the USSR Subsequently passed by a vote of 122 to 66 was a resolution submitted by the American Psychiatric Association to set up a committee monitoring The misuse of psychiatric skills knowledge and facilities for the suppression of dissent wherever it occurs *Soviet psychoprisoners* H. Fireside, 1978

Torture and Democracy Darius M. Rejali, 2007 This is the most comprehensive and most comprehensively chilling study of modern torture yet written Darius Rejali one of the world's leading experts on torture takes the reader from the late nineteenth century to the aftermath of Abu Ghraib from slavery and the electric chair to electro-torture in American inner cities and from French and British colonial prison cells and the Spanish American War to the fields of Vietnam the wars of the Middle East and the new democracies of Latin America and Europe As Rejali traces the development and application of one torture technique after another in these settings he reaches startling conclusions As the twentieth century progressed he argues democracies not only tortured but set the international pace for torture Dictatorships may have tortured more and more indiscriminately but the United States Britain and France pioneered and exported techniques that have become the lingua franca of modern torture methods that leave no marks Under the watchful eyes of reporters and human rights activists low level authorities in the world's oldest democracies were the first to learn that to scar a victim was to advertise iniquity and invite scandal Long before the CIA even existed police and soldiers turned instead to clean techniques such as torture by electricity ice water noise drugs and stress positions As democracy and human rights spread after World War II so too did these methods Rejali makes this troubling case in fluid arresting prose and on the basis of unprecedented research conducted in multiple languages and on several continents begun years before most of us had ever heard of Osama bin Laden or Abu Ghraib The author of a major study of Iranian torture Rejali also tackles the controversial question of whether torture really works answering the new apologists for torture point by point A brave and disturbing book this is the benchmark against which all future studies of modern torture will be measured

Russ Shafer Landau employs a uniquely engaging writing style to introduce students to the essential ideas of moral philosophy. Offering more comprehensive coverage of the good life, normative ethics, and metaethics than any other text of its kind, this book also addresses issues that are often omitted from other texts, such as the doctrine of doing and allowing, the doctrine of double effect, ethical particularism, the desire satisfaction theory of well-being, and moral error theory. Shafer Landau carefully reconstructs and analyzes dozens of arguments in depth at a level that is understandable to students with no prior philosophical background. Ideal for courses in introductory ethics and contemporary moral problems, this book can be used as a stand-alone text or with the author's companion reader, *The Ethical Life: Fundamental Readings in Ethics and Moral Problems*, which offers original readings exploring the topics covered in *The Fundamentals of Ethics*. **Program of the ... Annual Meeting of the American Historical Association**, American Historical Association, Meeting, 1981.
