Soviet-type Economic Systems Z. Edward O'Relley,1978 **Centralized and Decentralized Economic Systems**
Wayne A. Leeman,1977 *Economic Analysis of the Soviet-Type System* Judith Thornton,1976-08-05 Economics textbook
presenting a formal description and economic analysis of the centrally planned economy of the type of the USSR economic

I turn now to some of my own reflections on this score Some Reflections My first proposition is that if we are interested in
analyzing the performance and dynamic properties of the world s economies it is only at significant peril that comparative
economists can overlook noneconomic or political factors This is not to say that it is illegitimate to abstract from non
economic factors for particular purposes rather such abstraction should occur only with cogni zance of the influences being
suppressed I have argued elsewhere that the analytical compromise in suppressing noneconomic variables is greater for the
study of planned than for market economies 7 Borrowing from Polanyi 8 it is claimed that in market sys tems the economic
sphere is disembodied from separate and not subordinate to the political social and cultural spheres while in planned
systems the economic sphere is embedded in the noneconomic spheres To be sure market economies are strongly affected by
political and cultural factors but planned economies have and often exercise the potential to let political goals dominate in
making production allocational or distributional choices Indeed it is difficult in practice to separate out what are political and
what are economic decisions in planned systems **China's Economy Looks Toward the Year 2000: The four
modernizations** ,1986 *Comparative Economic Systems* Richard L. Carson,1990 This text explores the major topics in
comparative economic systems Part I discusses property rights and the role of the state in the context of historical evaluation
Part II examines the varieties of socialist systems with special attention to the Hungarian Yugoslav and Chinese cases and
Part III presents the capitalist alternatives using Japan Sweden and West Germany as models *Mainland China* Yu-ming
