## **Take Heart:**

**Take Heart** Philip D. Houck, 2008-10-09 *Take Heart* is a book of medical science and a little fiction. It is intended to be an interesting text book of the heart and the practice of cardiology. The words are designed to change the practice of medicine from the profit of illness to individual responsibility preventing disease before it occurs. Heart failure patients should read this book to inspire them to recover and understand the long road ahead. The medically inspired should read this book to learn to question their teachers. Politicians should read this book to find a path avoiding our future health care disaster.

Take Heart Molly Peacock, 1989 Molly Peacock has a genius for saying the most necessary things in the quietest way so that intensive dilemmas of feeling and person become a common fact for all who care to listen. **The Travis Traveling Medicine Show** Carlos M. Lago, 2023-01-10 This Novel tells about the practice of American medicine from colonial times through the 20th century and its effects. Medicine was in its infancy. Epidemics of malaria, dysentery, yellow fever, and others decimated the populace. Medications were few and deadly elements like arsenic and opium were commonly used. Fortunately, Traveling Medicine Shows brought cures and elixirs, magical or medicinal, plus entertainment to the people living in small and large towns and cities. They relieved the boredom of open spaces and rural living; some of them brought musical entertainment. The Travis Traveling Medicine Show had a sterling reputation. It provided medications to the populace and was ethical in not selling any medicine they thought would harm their customers. The main characters, Charles Reynolds and Carole Blanchard, live in Schenectady, New York. Charles studied to become an apothecary, and Carole became a singer and took voice lessons in famous musical conservatories. They were both hired by the Travis Traveling Medicine Emporium and performed as its top singers. It is possible that young apothecaries who frequented the Shows may have learned of the toxicity of certain patent medicines from customers of the Shows and decided to look into the matter and, if possible, eliminate them. The motivated young men and women employed in Patent Medicine Production and Marketing sometimes found each other and fell in love. This is also their story.
